We believe that this process should expedite stockholders' receipt of proxy materials, lower the costs of our annual meeting and help to conserve natural resources. On October 19, 2012, we mailed our stockholders a notice containing instructions on how to access our 2012 Proxy Statement (the "Proxy Statement") and 2012 Annual Report (the "Annual Report") and vote online. The notice also included instructions on how to receive a paper copy of your annual meeting materials, including the notice of annual meeting, Proxy Statement and proxy card. If you received your annual meeting materials by mail, the notice of annual meeting, Proxy Statement and proxy card were enclosed. If you received your annual meeting materials via e-mail, the e-mail contained voting instructions and links to the Annual Report and the Proxy Statement on the Internet, which are both available at <https://materials.proxyvote.com/004397>.

For a period of at least 10 days prior to the annual meeting, a complete list of stockholders entitled to vote at the annual meeting will be available and open to the examination of any stockholder

All stockholders are cordially invited to attend the annual meeting in person. **QUESTIONS AND ANSWERS REGARDING THIS SOLICITATION
AND VOTING AT THE ANNUAL MEETING**

***Why did I receive a Notice of Internet
Availability of Proxy Materials?***

Under rules adopted by the U.S. Securities and Exchange Commission, or SEC, we are furnishing proxy materials to our stockholders primarily via the Internet, instead of mailing printed copies of those materials to each stockholder. On October 19, 2012, we mailed to our stockholders (other than those who previously requested electronic or paper delivery) a Notice of Internet Availability of Proxy Materials containing instructions on how to access our proxy materials, including this Proxy Statement and our Annual Report. The Notice of Internet Availability of Proxy Materials also instructs you on how to access your proxy card to vote through the Internet or by telephone.

This process is designed to expedite stockholders' receipt of proxy materials, lower the cost of the annual meeting, and help conserve natural resources. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice of Internet Availability of Proxy Materials. If you have previously elected to receive our proxy materials electronically, you will continue to receive these materials via e-mail unless you elect otherwise. If you received your annual meeting materials via e-mail, the e-mail contained voting instructions and links to the Annual Report and the Proxy Statement on the Internet, which are both available at:
<https://materials.proxyvote.com/004397>.

<i>Why am I receiving access to these proxy materials?</i>	You are receiving access to this Proxy Statement from us because you were a stockholder of record at the close of business on the record date of October 5, 2012. As a stockholder of record, you are invited to attend our annual meeting of stockholders and are entitled to vote on the items of business described in this Proxy Statement. This Proxy Statement contains important information about the annual meeting and the items of business to be transacted at the annual meeting. You are strongly encouraged to read this Proxy Statement, which includes information that you may find useful in determining how to vote.
<i>Who is entitled to attend and vote at the annual meeting?</i>	Only holders of record of shares of our common stock at the close of business on October 5, 2012, the record date, are entitled to notice of, to attend and to vote at the annual meeting and any adjournments or postponements of the annual meeting.
<i>How many shares are outstanding?</i>	On the record date, 72,242,047 shares of our common stock were issued and outstanding. Each share of common stock outstanding on the record date is entitled to one vote.
<i>How many shares must be present or represented to conduct business at the annual meeting (that is, what constitutes a quorum)?</i>	The presence at the annual meeting, in person or represented by proxy, of the holders of at least a majority of the shares of our common stock issued and outstanding on the record date and entitled to vote at the annual meeting will constitute a quorum for the transaction of business. If, however, a quorum is not present, in person or represented by proxy, then either the chair of the annual meeting or the stockholders entitled to vote at the annual meeting may adjourn the annual meeting until a later time.
<i>What items of business will be voted on at the annual meeting?</i>	<p>The items of business to be voted on at the annual meeting are as follows:</p> <ol style="list-style-type: none">1. The election of two Class III directors named in the proxy statement to hold office until our 2015 Annual Meeting of Stockholders, or until their respective successors have been duly elected or appointed;2. An advisory vote to approve the compensation of our named executive officers;3. The approval of an amendment to the Company's Certificate of Incorporation to increase the number of authorized shares; and4. The ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2013.

What happens if additional matters are presented at the annual meeting?

The only items of business that our Board of Directors intends to present at the annual meeting are set forth in this Proxy Statement. As of the date of this Proxy Statement, no stockholder has advised us of the intent to present any other matter, and we are not aware of any other matters to be presented at the annual meeting. If any other matter or matters are properly brought before the annual meeting, the person(s) named as your proxyholder(s) will have the discretion to vote your shares on the matters in accordance with their best judgment and as they deem advisable.

What shares can I vote at the annual meeting?

You may vote all of the shares you owned as of October 5, 2012, the record date, including shares held directly in your name as the *stockholder of record* and all shares held for you as the *beneficial owner* through a broker, trustee or other nominee such as a bank.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Most of our stockholders hold their shares through a broker or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholders of Record. If your shares are registered directly in your name with our transfer agent, Computershare Shareowner Services, you are considered, with respect to those shares, the *stockholder of record*, and we are sending these proxy materials directly to you. As the *stockholder of record*, you have the right to vote in person at the annual meeting or direct the proxyholder how to vote your shares on your behalf at the annual meeting by fully completing, signing and dating the enclosed proxy card and returning it to us in the enclosed postage-paid return envelope, or by following the procedures for voting on the Internet or by phone.

Beneficial Owner. If your shares are held in a brokerage account or by a trustee or another nominee, you are considered the *beneficial owner* of those shares held *in street name* for your account, and these proxy materials are being made available to you together with a voting instruction card by your broker, trustee or other nominee. As the beneficial owner, you have the right to direct your broker, trustee or nominee to vote your shares as you instruct in the voting instruction card. The broker, trustee or other nominee may either vote in person at the annual meeting or grant a proxy and direct the proxyholder to vote your shares at the annual meeting as you instruct in the voting instruction card. You may also vote in person at the annual meeting, but only after you obtain a "legal proxy" from the broker, trustee or other nominee that holds your shares, giving you the right to vote your shares at the annual meeting. Your broker, trustee or other nominee has enclosed or provided a voting instruction card for you to use in directing the broker, trustee or other nominee how to vote your shares.

How can I vote my shares without attending the annual meeting?

As discussed previously, whether you hold shares directly as the stockholder of record or as a beneficial owner, you may direct how your shares are voted without attending the annual meeting by voting on the Internet, voting by phone, or completing and returning the proxy card or voting instruction card. If you provide specific instructions with regard to items of business to be voted on at the annual meeting, your shares will be voted as you instruct on those items. If you just sign your proxy card or voting instruction card with no further instructions, or if you electronically transmit your voting instructions but do not direct how to vote on each item, your shares will be counted as votes in accord with the Board's recommendation.

How can I attend the annual meeting?

Whether you hold shares in your name as the stockholder of record or beneficially in street name, you should be prepared to present photo identification for admittance. Please also note that if you are not a stockholder of record but hold shares through a broker, trustee or nominee, you will need to provide proof of beneficial ownership as of the record date, such as your most recent brokerage account statement, a copy of the voting instruction card provided by your broker, trustee or nominee, or other similar evidence of ownership. The annual meeting will begin promptly at 9:00 a.m. PST. Check-in will begin at 8:30 a.m. PST. ***Even if you plan to attend the annual meeting, we recommend that you also vote by Internet, vote by telephone, or complete, sign and date the proxy card or voting instruction card and return it promptly in order to ensure that your vote will be counted if you later decide not to, or are unable to, attend the annual meeting.***

Can I change my vote or revoke my proxy?

You may change your vote or revoke your proxy at any time prior to the vote at the annual meeting. If you are the stockholder of record, you may change your vote by granting a new proxy bearing a later date, which automatically revokes the earlier proxy, by providing a written notice of revocation to our Corporate Secretary prior to your shares being voted, or by attending the annual meeting and voting in person. Attendance at the annual meeting will not cause your previously granted proxy to be revoked unless you specifically so request.

If you are a beneficial owner, you may change your vote by submitting a new voting instruction card to your broker, trustee or nominee, or, if you have obtained a legal proxy from your broker, trustee or nominee giving you the right to vote your shares, by attending the annual meeting and voting in person.

What is a "broker non-vote"?

Under the rules that govern brokers that have record ownership of our shares of common stock that are held in street name for the benefit of their clients, who are the beneficial owners of the shares, brokers and banks have the discretion to vote such shares on routine matters. The approval of the amendment to the Company's Certificate of Incorporation to increase the number of authorized shares and the ratification of the appointment of independent registered public accounting firms are considered routine matters. Therefore, if you do not otherwise instruct your broker or bank, the broker or bank may vote your shares on this matter. However, your broker or bank will not be able to vote your shares for the election of directors or the advisory vote to approve the compensation of named executive officers without your specific instruction because these are not considered routine matters. A "broker non-vote" occurs when a broker or bank does not receive timely instructions from the beneficial owner, and therefore such broker or bank expressly indicates on a proxy card that it is not voting the uninstructed shares on a non-routine matter.

How are "broker non-votes" counted?

Broker non-votes will be counted as present for the purpose of determining the presence or absence of a quorum for the transaction of business, but they will *not* be counted as "votes cast" in tabulating the voting result for any particular proposal.

What happens if the annual meeting is adjourned?

If our annual meeting is adjourned to another time or place, no additional notice will be given of the adjourned meeting if the time and place of the adjourned meeting is announced at the annual meeting, unless the adjournment is for more than 30 days, in which case a notice of the adjourned meeting will be given to each stockholder of record entitled to vote at the adjourned meeting. At the adjourned meeting, we may transact any items of business that might have been transacted at the annual meeting.

Who will serve as inspector of elections?

A representative of Computershare Shareowner Services, our transfer agent, will tabulate the votes and act as inspector of elections at the annual meeting.

What should I do in the event that I receive more than one set of proxy materials?

You may receive more than one copy of the Notification of Internet Availability of Proxy Materials or more than one set of these proxy solicitation materials, including multiple copies of this Proxy Statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you may receive a separate voting instruction card for each brokerage account in which you hold shares. In addition, if you are a stockholder of record and your shares are registered in more than one name, you may receive more than one Notification of Internet Availability of Proxy Materials or proxy card. Please vote on the Internet, by telephone, or complete, sign, date and return each proxy card and voting instruction card that you receive to ensure that all your shares are voted.

Who is soliciting my vote and who will bear the costs of this solicitation?

The proxy is being solicited on behalf of our Board of Directors. We will bear the entire cost of solicitation of proxies, including preparation, Internet posting, assembly, printing and mailing of this Proxy Statement. In addition to solicitation by mail, our directors, officers and employees may also solicit proxies in person, by telephone, by electronic mail or by other means of communication. We will not pay any additional compensation to our directors, officers or other employees for soliciting proxies. We have retained MacKenzie Partners, Inc. to assist in the solicitation of proxies for a fee of approximately \$15,000 plus reasonable out-of-pocket costs and expenses. Copies of the proxy materials will be furnished to brokerage firms, banks, trustees, custodians and other nominees holding beneficially owned shares of our common stock, who will forward the proxy materials to the beneficial owners. We are required to reimburse brokerage firms, banks, trustees, custodians and other agents for the costs of forwarding the proxy materials.

Where can I find the voting results of the annual meeting?

We intend to announce preliminary voting results at the annual meeting, and publish the final voting results in a current report on Form 8-K filed with the SEC within four business days following the annual meeting.

What is the deadline for submitting proposals for consideration at next year's annual meeting of stockholders or to nominate individuals to serve as directors?

As a stockholder, you may be entitled to present proposals for action at a future annual meeting of stockholders, including director nominations. Please refer to "Stockholder Proposals" and "Nomination of Director Candidates" below.

Director Nominees

Our Board of Directors has nominated Ms. Dávila and Mr. Levine for election as Class III directors. Wayne Wu was not nominated to stand for re-election to our board of directors at the end of his term expiring at the Annual Meeting. Each nominee for director has consented to being named in this Proxy Statement and has indicated a willingness to serve if elected. If a nominee is unavailable for election, the persons named as proxyholders will use their discretion to vote for any substitute nominee in accordance with their best judgment as they deem advisable. Listed below are the biographies of each director nominee. The biographies include information regarding each nominee's service as a director of the Company, business experience and principal occupations for at least the past five years, director positions at public companies held currently or at any time during the past five years, and the experiences, qualifications, attributes or skills that led the Nominating and Corporate Governance Committee to recommend, and the Board to determine, that the person should serve as a director for the Company.

Elizabeth Dávila has served as a member of our Board of Directors since February 2008 and as Vice Chairperson of our Board of Directors since September 2008. Ms. Dávila was the former Chairman and Chief Executive Officer of VISX, Incorporated ("VISX"), a manufacturer of laser vision correction systems, which was acquired by Advanced Medical Optics in May 2005. Prior to becoming Chairman and Chief Executive Officer of VISX in 2001, she served as President and Chief Operating Officer of VISX from 1999 to 2001 and as Executive Vice President and Chief Operating Officer from 1995 to 1999. Ms. Dávila holds a B.S. in Chemistry from St. Mary's College in Notre Dame, Indiana, an M.S. in Chemistry from the University of Notre Dame in Notre Dame, Indiana, and an M.B.A. from Stanford University in Stanford, California.

As a former Chief Executive Officer of VISX and a member and former member of several public and private company boards, Ms. Dávila has extensive healthcare industry experience in management, business development, operations, strategy and capital equipment sales.

Joshua H. Levine has served as our President and Chief Executive Officer and as a member of our Board of Directors since October 12, 2012. From November 2011 to the time he joined the Company in October 2012, Mr. Levine attended to personal matters. Mr. Levine served from June 2011 to October 2011 as the President and Chief Executive Officer and as a member of the Board of Directors of Immucor Corporation, a diagnostics manufacturer of automated instrumentation and reagents used in transfusion medical procedures. From August 2010 through May 2011, Mr. Levine worked as an independent consultant. Prior thereto, Mr. Levine served in several executive capacities during his 14-year tenure with Mentor Corporation, a medical device/surgical implant manufacturer that was acquired by Johnson & Johnson in early 2009. At Mentor Corporation, post acquisition by Johnson & Johnson, Mr. Levine served as Worldwide President from January 2009 to July 2010 and, prior to acquisition by Johnson & Johnson, as President and Chief Executive Officer and a member of the Board of Directors from June 2004 to January 2009. Mr. Levine's qualifications to serve on our Board of Directors include, among other skills and qualifications, his strategic business development skills, commercial leadership experience, and executive vision. In addition, Mr. Levine brings expertise in the healthcare industry from years of experience as a chief executive officer with other medical device manufacturing companies.

If elected, Ms. Davila and Mr. Levine will hold office as Class III directors until our annual meeting of stockholders to be held in 2015, or until their earlier resignation or removal.

How votes are counted

Stockholders are not entitled to cumulate their votes in the election of directors or with respect to any matter submitted to a vote of the stockholders. To be elected, directors must receive a majority of the votes cast (the number of shares voted "FOR" a director nominee must exceed the number of votes cast "AGAINST" that nominee). You may vote either "FOR" or "AGAINST" each director nominee or you may abstain. A properly executed proxy marked "ABSTAIN" with respect to any director will be counted for purposes of determining whether there is a quorum, but it will not be counted for purposes of determining the number of votes cast with respect to the election of such a director, and thus it will not have the same effect as a vote against a director nominee.

Board of Directors' Recommendation

OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" EACH OF THE TWO NOMINEES FOR CLASS III DIRECTOR LISTED ABOVE.

Directors Whose Terms Extend Beyond the 2012 Annual Meeting

Listed below are the biographies of each of our Class I and Class II directors. **PROPOSAL TWO—ADVISORY VOTE
TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS
("SAY-ON-PAY VOTE")**

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act"), which was enacted on July 21, 2010, enables our stockholders to approve, on an advisory (non-binding) basis, no less frequently than once every three years, the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with the SEC's rules. We submitted both our first advisory vote on compensation and an advisory vote on how frequently such a vote would occur to our stockholders at our 2011 Annual Meeting. Stockholders owning 83% of the shares voting on the advisory vote on compensation at our 2011 Annual Meeting approved the compensation of our named executive officers for fiscal 2011 and stockholders owning 92% of the shares voting on the frequency of advisory votes on executive compensation favored an annual vote. In consideration of this and other factors, our Compensation Committee and Board of Directors have decided to hold advisory votes on the approval of executive compensation annually until the next advisory vote on frequency occurs. Accordingly, unless the Compensation Committee and Board of Directors modifies its policy on the frequency of future votes, the next advisory vote to approve executive compensation will be held at the 2013 annual meeting of stockholders. In this proposal, we are asking our stockholders to provide advisory approval of the compensation of Accuray Incorporated's Named Executive Officers ("NEO" or "NEOs"), as such compensation is described in the Compensation Discussion and Analysis section, the tabular disclosure regarding such compensation, and the accompanying narrative disclosure set forth in this Proxy Statement, beginning on page 15.

In fiscal 2012, our executive compensation programs were designed to enable us to attract, retain, motivate and appropriately reward the individuals who can help us successfully execute our business strategy and promote the best interests of our stockholders. In deciding how to vote on this proposal, the Board of Directors urges you to consider the following factors, which are more fully discussed in the Compensation Discussion and Analysis section below:

- *We tie pay to performance.*

- NEO base salaries were modestly increased in fiscal 2012 over their fiscal 2011 levels, both in recognition of Company and individual performance in fiscal 2011 and in an effort to maintain base salaries in the range of the 50th to 60th percentiles of the competitive market as reported in the Radford April 2011 High-Tech Industry Survey (the "Radford Survey") for companies with \$200-\$500 million in annual revenue and by a peer group of 17 medical device companies with whom we compete for executive talent which are in our industry sector and which have comparable financial and organizational characteristics.

- The bonus pool was funded, in accordance with funding methodology established at the beginning of the year, at 68.6% of the target level. The Compensation Committee determined that the fiscal 2012 annual cash incentive award payouts to the executives, including NEOs, collectively, would be no greater than 68.6% of the total target award opportunity for the executives, including NEOs, as a whole. Sixty-five percent of each NEO's annual bonus was tied to Company performance, and 35% was tied to the executive's individual performance. Accordingly, for fiscal 2012 65% of the funded target award opportunity was paid to each NEO based on Company performance. The

Compensation Committee also exercised its discretion to determine the level to be paid to each NEO with respect to the remaining 35% target award opportunity based on each NEO's individual performance and achievement of his or her respective fiscal 2012 goals and objectives. With respect to Dr. Thomson, our former CEO, the Compensation Committee exercised its negative discretion to reduce the 35% target opportunity to 0% for fiscal 2012.

- In fiscal 2012, the Compensation Committee approved a performance equity program, referred to as the performance stock unit program ("PSU program"), which sets forth stretch goals for the Company to achieve. Performance Stock Units were tied to the achievement of key stretch goals relating to revenue and profitability to be achieved by the end of fiscal 2013, thereby tying an even greater portion of NEO compensation directly to performance going forward.
- In fiscal 2013, the Compensation Committee approved a new performance equity program, referred to as the market stock unit program ("MSU Program"), which uses the Russell 2000 index as a performance benchmark and requires that the Company's total stockholder return exceed that of the Russell 2000 in order for a certain number of shares to be earned by each participating executive, including participating NEOs, on a sliding scale based on how much the Russell 2000 benchmark is exceeded, up to a maximum of 150% of the target number of shares. There are two measurement periods, one at the end of fiscal 2014 and another at the end of fiscal 2015, thereby tying an even greater portion of the compensation of participants in the MSU Program directly to performance going forward.
- *We have reasonable employment agreements.* Each NEO's employment agreement has competitively reasonable cash benefit levels and double trigger change of control acceleration for equity awards. Our former CEO's employment agreement also provided for partial equity acceleration in the event of certain terminations of employment apart from a change of control. For the terms of the employment agreement for our new CEO, please refer to the information set forth under "*Employment, Change in Control and Severance Arrangements*".
- *We mitigate unnecessary risk.* We have implemented robust Board and management-level processes to identify risk, and we mitigate undue risk with business controls, including maximum payout levels under our annual incentive award plan, a sales compensation committee and a recoupment (sometimes called a "clawback") policy that applies to both our annual cash incentive and long-term equity incentive programs.
- *We have strong corporate governance standards.* Our Compensation Committee uses an independent compensation consultant, and has incorporated compensation analytical tools such as market data, tally sheets and compensation history for each executive officer as part of its annual executive compensation review.
- *We have adopted stock ownership requirements.* Our Compensation Committee believes it is important for executives and non-employee directors to hold a minimum amount of our common stock, in order to align their interests with those of our stockholders. Consistent with this belief, the Compensation Committee implemented stock ownership guideline policies with stock holding requirements for our executives as follows:
 - The lesser of 3.0 times base salary or 175,000 shares for our CEO;
 - The lesser of 1.0 times base salary or 40,000 shares for our CFO, COO, CCO; and
 - The lesser of 1.0 times base salary or 17,500 shares for our General Counsel.

While each NEO has five years from the later of July 1, 2010 and the date of employment to achieve the required ownership levels, each NEO who has been employed by the Company for more than one year already meets the applicable ownership requirement.

- *We do NOT engage in the following compensation practices:*
 - We do not provide perquisites or other personal benefits to our NEOs.
 - We do not currently offer pension arrangements, retirement plans (other than our Section 401(k) employee savings plan), or nonqualified deferred compensation plans or arrangements to our executives, including the NEOs.
 - We do not provide excise tax gross-ups.

The Compensation Committee will continue to analyze our executive compensation policies and practices and adjust them as appropriate to reflect our performance and competitive needs.

How votes are counted

The adoption of the non-binding advisory resolution to approve the compensation of our named executive officers requires the affirmative vote of a majority of shares present at the annual meeting, in person or by proxy, and entitled to vote on the proposal. A properly executed proxy marked "ABSTAIN" with respect to the approval of the compensation of our named executive officers will not be voted with respect to such proposal, but it will be counted for purposes of determining whether there is a quorum. Abstentions will be treated as being present and entitled to vote on the proposal and, therefore, will have the same effect as a vote against the proposal.

Board of Directors' Recommendation

Based on the information provided above and within the "Compensation Disclosure" section of this Proxy Statement, we request that you indicate your support for our executive compensation philosophy and practices, by voting in favor of the following resolution:

"RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the Company's named executive officers as described in this Proxy Statement, including the "Compensation Discussion and Analysis" section, the compensation tables, and the other narrative compensation disclosures."

The opportunity to vote on this Proposal Two is required pursuant to Section 14A of the Exchange Act. Because your vote is advisory, however, it will not be binding on the Board of Directors. However, the Compensation Committee, which is responsible for designing and administering our executive compensation program, and the Board of Directors values the opinions expressed by stockholders and will consider the outcome of the vote when making future compensation decisions for our named executive officers.

OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DESCRIBED IN THIS PROXY STATEMENT.

**PROPOSAL THREE—APPROVAL OF AN AMENDMENT TO THE COMPANY'S CERTIFICATE OF
INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES**

Summary

The Company is asking stockholders to approve an amendment to the Company's amended and restated certificate of incorporation (the "Certificate of Incorporation") to:

- Increase the total number of authorized shares from 105,000,000 to 205,000,000, thereby increasing the authorized shares of common stock from 100,000,000 to 200,000,000

The additional common stock will have rights identical to the Company's currently outstanding common stock. The number of authorized shares of the Company's preferred stock will not be affected by this amendment; it will be maintained at 5,000,000 shares. No shares of preferred stock have been issued, and the Company currently has no plans, arrangements, commitments or understandings with respect to the issuance of any shares of preferred stock.

Substantially all of the Company's currently authorized common stock has been either issued, or is reserved for issuance under the Company's employee equity plans and upon conversion of our 3.75% Convertible Senior Notes issued on August 1, 2011 (the "Notes"). As a result of the significant reserved shares, the Company does not currently have sufficient shares authorized to maintain a competitive employee equity compensation program during calendar year 2013 and beyond, to pursue appropriate acquisition or investment opportunities using the Company's stock as consideration or take certain other actions that the Board determines are in the best interests of the Company and its stockholders.

Article IV of the Company's Certificate of Incorporation currently authorizes the Company to issue up to 105,000,000 shares of stock; 100,000,000 shares are designated as common stock with a par value of \$0.001 per share, and 5,000,000 shares are designated as preferred stock with a par value of \$0.001 per share. On August 21, 2012, our Board of Directors approved an amendment to Article IV to increase the total authorized shares and the authorized shares of common stock as described in the first paragraph of this Summary. This amendment to the Certificate of Incorporation requires approval of both the Board of Directors and our stockholders. Accordingly, the Company is seeking stockholder approval for the amendment by means of this Proxy Statement.

Purpose of the Proposed Amendment

The Company's common stock consists of a single class, with equal voting, distribution, liquidation and other rights. As of August 31, 2012, of our 100,000,000 shares of authorized common stock, 72,049,080 shares were outstanding and 27,737,404 shares were reserved. The reserved shares are for issuance upon conversion of the Notes (consisting of 13,194,350 shares) and pursuant to our employee equity plans (consisting of 14,543,054 shares). This leaves the Company with only 213,516 shares of common stock that are authorized but not already reserved for issuance.

The increase in authorized shares of common stock will allow the Company to continue implementing its employee equity programs at competitive levels. The Company's ability to offer employee equity is essential to its ability to hire and retain employees with the requisite skills and experience to conduct the Company's business.

The increase in authorized common shares will also give the Board of Directors the flexibility to undertake certain transactions to support the Company's business operations, without the potential expense or delay associated with obtaining stockholder approval for any particular issuance. For example, the Company could issue additional shares of common stock in the future in connection with

one or more of the following (subject to laws or regulations that might require stockholder approval of certain transactions):

- Acquisitions
- Strategic investments
- Partnerships, collaborations and other similar transactions
- Financing transactions, such as public or private offerings of common stock or convertible securities
- Debt or equity restructuring or refinancing transactions
- Stock splits or stock dividends
- Any other proper corporate purposes

Potential Adverse Effects of the Proposed Amendment

If Proposal Three is adopted, the additional authorized shares of common stock can be issued or reserved with approval of the Board at times, in amounts, and upon terms that the Board of Directors may determine, without additional stockholder approval. This could have a dilutive impact on our earnings per share and book value per share. However, the Board's discretion will be subject to any applicable laws or regulations that might require stockholder approval for any particular issuance or reservation of shares.

Current stockholders will have no preemptive rights to purchase additional shares. Stockholder approval of Proposal Three will not, by itself, cause any change in the Company's capital accounts. However, any future issuance of additional shares of authorized common stock, or securities convertible into common stock, would ultimately result in dilution of existing stockholders' equity interests. In addition, the availability of additional shares of common stock for issuance could, under certain circumstances, discourage or make more difficult any efforts to obtain control of the Company. The Board is not aware of any actual or contemplated attempt to acquire control of the Company and this Proposal Three is not being presented with the intent that it be used to prevent or discourage any acquisition attempt. However, nothing would prevent the Board from taking any actions that it deems consistent with its fiduciary duties.

Risks to Stockholders of Non-Approval

If the stockholders do not approve this Proposal Three, the Company will face substantial challenges in hiring and retaining employees at all levels of the Company, including its executive leadership team, beginning in calendar year 2013. In addition, the Board may be precluded from pursuing a wide range of potential corporate opportunities that might be in the best interests of the Company and its stockholders.

Text of the Proposed Amendment

If this Proposal Three is approved, the Company will amend its Certificate of Incorporation by replacing Article IV A in its entirety as follows:

"ARTICLE IV

A. This Corporation is authorized to issue two classes of stock to be designated, respectively, 'Common Stock' and 'Preferred Stock.' The total number of shares that the Corporation is authorized to issue is Two Hundred Five Million (205,000,000), Two Hundred Million (200,000,000) shares of which shall be Common Stock and Five Million (5,000,000) of which shall be Preferred Stock. The

Common Stock shall have a par value of \$0.001 per share and the Preferred Stock shall have a par value of \$0.001 per share."

The amendment will become effective when a certificate of amendment to the Certificate of Incorporation is filed with the Secretary of State of the State of Delaware.

Vote Required and Board of Directors' Recommendation

Approval of the amendment to the Company's Certificate of Incorporation requires the approval of a majority of the outstanding shares of the common stock entitled to vote on this Proposal Three. Abstentions will have the same effect as votes cast against Proposal Three.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE APPROVAL OF THE AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION.

PROPOSAL FOUR—RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board of Directors has selected Grant Thornton LLP as our independent registered public accounting firm to perform the audit of our consolidated financial statements for the fiscal year ending June 30, 2013. Grant Thornton LLP audited our consolidated financial statements for the fiscal years ended June 30, 2012, 2011, 2010, 2009, 2008 and 2007.

Stockholder ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2013 is not required by law, by the NASDAQ Stock Market listing requirements or by our Amended and Restated Certificate of Incorporation or Bylaws. However, our Board of Directors is submitting the selection of Grant Thornton LLP to our stockholders for ratification as a matter of good corporate governance and practice. If the stockholders fail to ratify the appointment, the Audit Committee of our Board of Directors will reconsider whether or not to retain that firm. Even if the selection is ratified, we may appoint a different independent registered public accounting firm during the year if the Audit Committee of our Board of Directors determines that such a change would be in the best interests of our Company and our stockholders.

Representatives of Grant Thornton LLP are expected to be present at the annual meeting of stockholders. They will have an opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions from our stockholders.

How votes are counted

Stockholder ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2013 is not required by law or by governing instruments. However, our Board of Directors is submitting the selection of Grant Thornton LLP to our stockholders for ratification as a matter of good corporate governance and practice. The ratification of the appointment of Grant Thornton LLP requires a majority of the shares present in person or represented by proxy at the annual meeting. You may vote either "FOR" or "AGAINST" ratification of the appointment, or you may abstain. A properly executed proxy marked "ABSTAIN" with respect to the ratification of the appointment will not be voted with respect to such ratification, but it will be counted for purposes of determining whether there is a quorum. Abstentions will be treated as being present and entitled to vote on the proposal and, therefore, will have the same effect as a vote against the proposal. If the stockholders fail to ratify the appointment, the Audit Committee of our Board of Directors will reconsider whether or not to retain this firm.

Board of Directors' Recommendation

OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF GRANT THORNTON LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING JUNE 30, 2013.

Audit and Non-Audit Services

The Audit Committee is directly responsible for the appointment, compensation, and oversight of our independent auditors. The Audit Committee retained Grant Thornton LLP to audit our consolidated financial statements for the fiscal year ended June 30, 2012. The estimated aggregate fees billed by Grant Thornton LLP for all services relating to 2012 and 2011 are as follows:

<u>Service Category</u>	<u>Fiscal Year Ended</u> <u>June 30,</u>	
	<u>2012</u>	<u>2011</u>
Audit Fees(1)	\$ 2,024,000	\$ 1,932,000
Audit Related Fees	—	—
Tax Fees	—	—
All Other Fees	—	—
Total	<u>\$ 2,024,000</u>	<u>\$ 1,932,000</u>

- (1) Audit fees primarily consist of fees for professional services performed for the audit of our consolidated annual financial statements, including those related to TomoTherapy, which we acquired on June 10, 2011, and the review of our unaudited quarterly financial statements. Audit fees also include fees for the audit of our internal controls over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002. The Audit Fees for 2012 represent the amount billed to our Company as of the date of this Proxy Statement plus an estimated \$214,000, which we expect to be billed following the date of this Proxy Statement.

In the above table, in accordance with the SEC's definitions and rules, "audit fees" are fees for professional services for the audit of our consolidated financial statements included in our Annual Report on Form 10-K, for the review of our financial statements included in our quarterly reports on Form 10-Q, for the review of registration statements and issuance of consents and for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements except those not required by statute or regulation; "audit-related fees" are fees for assurance and related services that were reasonably related to the performance of the audit or review of our financial statements, including attestation services that are not required by statute or regulation; "tax fees" are fees for tax compliance, tax advice and tax planning; and "all other fees" are fees for any services not included in the first three categories.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services and tax services, as well as, to a very limited extent, specifically designated non-audit services that, in the opinion of the Audit Committee, will not impair the independence of the registered public accounting firm. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this

pre-approval, including the fees for the services performed to date. In addition, the Audit Committee also may pre-approve particular services on a case-by-case basis, as required. During fiscal 2012, all of the non-audit services performed by Grant Thornton LLP were pre-approved in accordance with Audit Committee policy.

AUDIT COMMITTEE REPORT

The Audit Committee of our Board of Directors is responsible for overseeing our accounting and financial reporting processes and internal control systems, the appointment, compensation, retention and oversight of Grant Thornton LLP, our independent registered public accounting firm, and audits of our financial statements, all pursuant to the Audit Committee's written charter. Grant Thornton LLP reports directly to the Audit Committee. The Audit Committee has the authority to obtain advice and assistance from outside legal, accounting or other advisors as the Audit Committee deems necessary to carry out its duties and to receive appropriate funding, as determined by the Audit Committee, from our Company for such advice and assistance.

Management is responsible for preparing our financial statements and for our financial reporting processes, accounting policies, systems of internal controls and disclosure controls and procedures. For our fiscal year ended June 30, 2012, Grant Thornton LLP was responsible for expressing an opinion on the effectiveness of our internal control over financial reporting. Grant Thornton LLP was also responsible for performing an independent audit and expressing an opinion on the conformity of our audited financial statements with accounting principles generally accepted in the United States. In this context, the Audit Committee hereby reports as follows:

1. The Audit Committee has reviewed and discussed our audited financial statements for fiscal 2012 with our management.
2. The Audit Committee has discussed with Grant Thornton LLP the matters required to be discussed by the statement on Accounting Standards No. 61, as amended (AICPA, *Professional Standards*, Vol. 1. AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.
3. The Audit Committee has received the written disclosures and the letter from Grant Thornton LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence and has discussed with Grant Thornton LLP its independence.
4. Based on the review and discussions referred to in paragraphs (1) through (3) above, the Audit Committee recommended to our Board of Directors that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2012, for filing with the SEC.

COMPENSATION DISCUSSION & ANALYSIS

Introduction

This Compensation Discussion and Analysis provides information regarding the fiscal 2012 compensation program for the principal executive officer, the principal financial officer and the three executive officers (other than the principal executive officer and principal financial officer) at fiscal year-end who were the most highly compensated executive officers of Accuray Incorporated and who were then employed by us. During fiscal 2012, these individuals were:

- Euan S. Thomson, Ph.D., our President and Chief Executive Officer (who resigned from our Company effective October 11, 2012);
- Derek A. Bertocci, our Senior Vice President and Chief Financial Officer;
- Chris A. Raanes, our Executive Vice President, Chief Operating Officer;
- Kelly Londy, our Senior Vice President and Chief Commercial Officer; and
- Darren J. Milliken, our Senior Vice President, General Counsel and Corporate Secretary.

These executives were Accuray Incorporated's NEOs for fiscal 2012. In this Compensation Discussion and Analysis, Accuray Incorporated is referred to as "our," "us," "we," or "the Company."

This Compensation Discussion and Analysis describes the material elements of our executive compensation program during fiscal 2012. It also provides an overview of our executive compensation philosophy, including our principal compensation policies and practices. Finally, it analyzes how and why the Compensation Committee of our Board of Directors arrived at the specific compensation decisions for our executives, including the NEOs, in fiscal 2012, and discusses the key factors that the Compensation Committee considered in determining their compensation.

Fiscal 2012 Highlights

Accuray Incorporated is a technology company focused on the design, development and marketing of radiation oncology treatment solutions that revolve around the patient.

Fiscal 2012 Business Results. In fiscal 2012 we achieved several significant financial results, as follows:

- Generated \$401.3 million in revenue (excluding adjustments associated with mergers and acquisitions) at 93.3% of our annual operating plan;
- Generated new orders to backlog (comprising new purchase agreements as well as the addition of existing customer contracts to backlog upon the contracts' satisfaction of our backlog criteria) at 69.4% of our annual operating plan for CyberKnife systems and 110.7% for our annual operating plan for TomoTherapy systems; and
- Achieved 38.6% gross margins, at 103% of our annual operating plan.

The foregoing metrics are the metrics under the Executive Performance Bonus Plan and are further discussed under the heading *Fiscal 2012 Cash Incentive Award Opportunities and Payouts* below.

Significant Executive Compensation Actions.

As reflected in our compensation philosophy, we set the compensation of our executives, including the NEOs, based on their ability to achieve annual operational objectives that we believe further our long-term business objectives and to create sustainable long-term stockholder value in a cost-effective manner. Accordingly, our fiscal 2012 compensation actions and decisions were based on our executives' accomplishments in these dual areas.

For fiscal 2012, the Compensation Committee determined that growth in new orders to backlog, maintenance of revenue despite the numerous challenges presented by the uncertain economic climate, and improved gross margins represented the objectives most important to creating long-term stockholder value. At the same time, for fiscal 2012 the Compensation Committee sought to maintain the stability and continuity of our management team, whose composition they viewed to be critical to the successful execution of our long-term business objectives and continued integration of TomoTherapy. Accordingly, the Compensation Committee addressed the primary elements of our executives' compensation packages (base salary, annual cash incentive awards, and equity awards) with these goals in mind. In addition, in light of our acquisition of TomoTherapy in June of 2011, as well as ongoing assessments of industry best practices and a desire to more closely align executive officer compensation with Company performance, the Compensation Committee and Board took additional actions to enhance our compensation and governance practices for fiscal 2012 and intends to continue this philosophy going forward.

Following is a summary of actions taken by the Compensation Committee with respect to the compensation of our executives, including the NEOs, for fiscal 2012:

- *Moderately increased base salaries.* The base salaries of each of Dr. Thomson, Mr. Bertocci and Mr. Milliken increased approximately by 3.5%. Mr. Raanes's salary increased by 9.5% in connection with his promotion from Senior Vice President to Executive Vice President. Ms. Londy did not receive an increase because she was hired during fiscal 2012 and her base salary was set at the time of hire.
- *Funded the bonus pool for annual cash incentive awards for executives at approximately 68.6% of the target level established at the beginning of the year.* The bonus pool was funded, in accordance with funding methodology established at the beginning of the year, at 68.6% of the target level. The Compensation Committee determined that the fiscal 2012 annual cash incentive award

payouts to the executives, including NEOs, collectively, would be no greater than 68.6% of the total target award opportunity for the executives, including NEOs, as a whole. Sixty-five percent of each NEO's annual bonus was tied to Company performance, and 35% was tied to the executive's individual performance. Accordingly, for fiscal 2012 65% of the funded target award opportunity was paid to each NEO based on Company performance. The Compensation Committee also exercised its discretion to determine the level to be paid to each NEO with respect to the remaining 35% target award opportunity based on each NEO's individual performance and achievement of his or her respective fiscal 2012 goals and objectives. With respect to Dr. Thomson, our former CEO, the Compensation Committee exercised its negative discretion to reduce the 35% target opportunity to 0% for fiscal 2012.

- *Approved stock option and RSU awards to address competitive market concerns, satisfy our retention objectives, and reward individual performance during fiscal 2012.* In making equity awards, the Compensation Committee took into consideration the fact that, consistent with our compensation philosophy, such awards further increased the NEOs' stake in the Company, thereby reinforcing their incentive to manage our business as owners and subjecting a significant portion of their total compensation to Company performance. Equity awards align with our growth strategy and provide significant leverage if our growth objectives are achieved, and, in addition, place a significant portion of executive compensation at risk if our business strategy and results do not result in returns to our stockholders.
- *Approved awarding performance-based grants of restricted stock units to executives (PSU Program) which will vest only upon the achievement of performance goals established by the Compensation Committee, thereby putting a greater percentage of executive compensation at-risk, linking a greater percentage of executive compensation to measures of our business success, and further linking our executives' compensation to the creation of long-term stockholder value.*
- *Clarified our compensation philosophy, which continues to reflect objectives that tie executive pay to Company performance, drive business growth and link stockholder and executive interests.* Consistent with our focus on linking executive compensation to performance, the bonus pool will not fund unless the specified performance goals are met. Moreover, performance-based RSUs will be forfeited if the Company's predetermined goals are not met within the set performance period.
- *Adjusted our compensation peer group for fiscal 2012 in order to (a) include a larger number of peers to improve the quality of the data sample and mitigate the impact of any outliers, (b) reflect peer group selection criteria more closely aligned to those of our growing Company, and (c) add a group of reference peers for the purposes of providing key labor market compensation data and an understanding of the compensation practices of larger industry companies.*
- *Strengthened the Company's stock ownership guidelines for our executive officers and non-employee directors such that they require mandatory ownership levels rather than merely suggested guidelines.* In addition, in March 2012, the Compensation Committee further amended the requirements with respect to non-employee directors. Prior guidelines required ownership levels at the lesser of three times a director's annual retainer or a specified number of shares. The revised requirements eliminate the share number alternative, simply requiring ownership equal to at least three times each director's annual board retainer.
- *Expanded the Company's recoupment policy (which is reflected in both our Performance Bonus Plan and 2007 Incentive Award Plan) to include potential recoupment of performance-based or incentive compensation paid to executive officers in the event of a material reduction in the Company's publicly disclosed backlog figures, if the compensation received by such executive officers is greater than would have been paid or awarded if calculated based on the materially reduced backlog figures.*

- *Amended Dr. Thomson's employment letter agreement to eliminate his guarantee to receive an annual option to purchase 40,000 shares of Company common stock.*

We also continued to maintain good governance standards in our executive compensation practices. The following policies remained in effect in fiscal 2012:

- Our executive officers' employment agreements do not include single trigger change of control acceleration for equity awards.
- We do not provide perquisites or other personal benefits to our executives, including the NEOs. Our executives participate in broad-based company-sponsored health and welfare benefits programs on the same basis as our other full-time, salaried employees.
- Separation of Board of Directors Chairperson and Chief Executive Officer positions. We have operated with these roles separated for several years and continue to believe separation of the two roles is in the best interests of our stockholders.
- No pension or nonqualified deferred compensation plans. We do not currently offer pension arrangements, retirement plans (other than our Section 401(k) employee savings plan), or nonqualified deferred compensation plans or arrangements to our executives, including the NEOs.
- Use of an independent compensation consultant who reports directly to the Compensation Committee.

Results of "Say-on-Pay" Advisory Vote.

The Company provided stockholders a "say-on-pay" advisory vote to approve its executive compensation in 2011 under recently adopted rules under Section 14A of the Exchange Act. At the 2011 Annual Meeting, stockholders expressed substantial support for the compensation of the Company's named executive officers, with 83% of the votes cast for approval of the "say-on-pay" advisory vote. The Committee carefully evaluated the results of the 2011 advisory vote in connection with its evaluation of the Company's executive compensation programs more generally. After careful consideration, and aside from the voluntary programs and actions described above, the Committee did not make any other material changes to the Company's executive compensation program and policies as a result of the 2011 "say-on-pay" vote.

Fiscal 2013 Compensation Actions.

In addition to the foregoing changes adopted in fiscal year 2012, for fiscal 2013, the Compensation Committee approved our MSU Program, which is described above under "Proposal Two."

The Compensation Committee's decisions with respect to fiscal 2012 and certain of its decisions with respect to fiscal 2013 are discussed in further detail below. In addition, the compensation and benefits provided to our NEOs for the last three years are set forth in the Summary Compensation Table and other tables that follow this Compensation Discussion and Analysis and in the footnotes and narrative material that accompany those tables.

Target Pay Mix

The following charts illustrate for our NEOs, the allocation of fiscal 2012 target total direct compensation between base salary, cash incentives and equity compensation elements. All elements, except base salary, are considered, "at-risk".

CEO 2012 Target Pay Mix

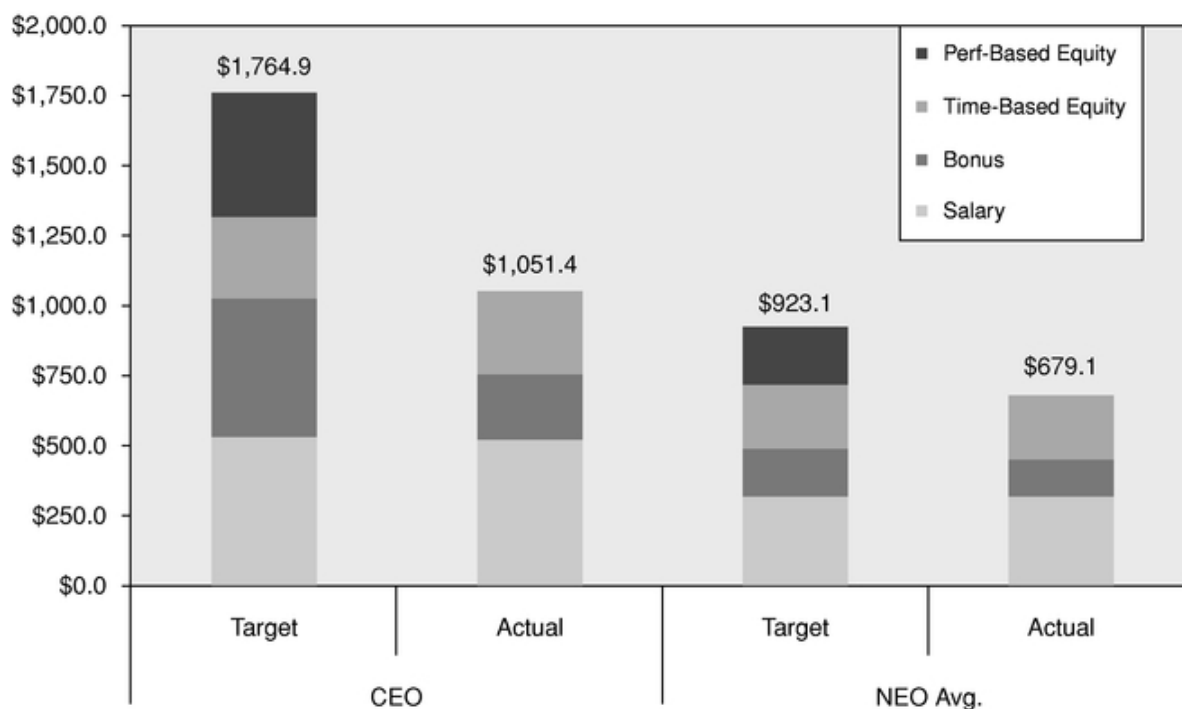

Average Other NEO 2012 Target Pay Mix

Based on our performance in fiscal 2012, a significant portion of the "at risk" compensation was not, and likely will not, be earned (i.e., bonus payout is below target and assumes performance-based equity grant is not earned).

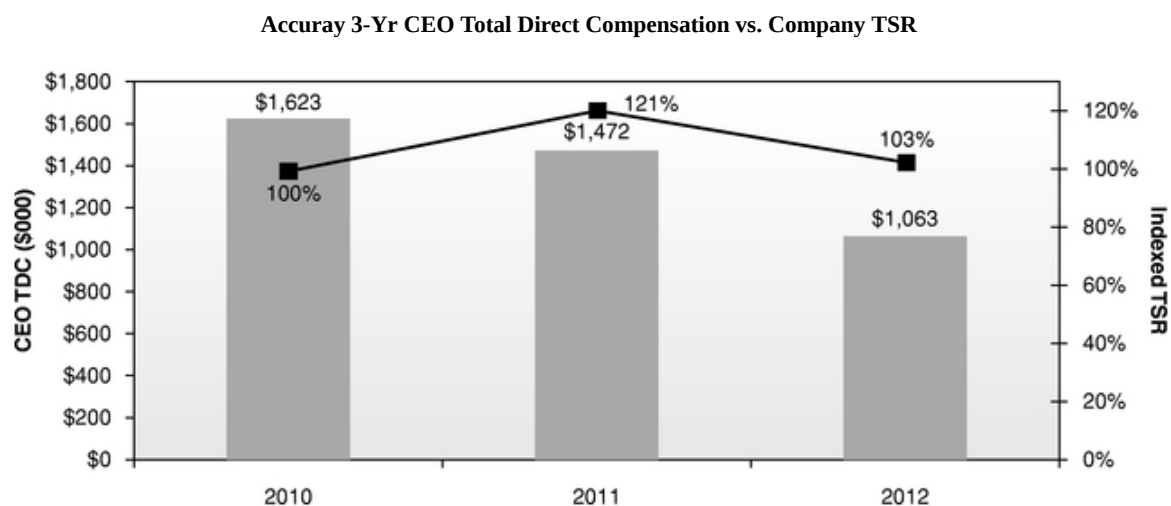

FY 2012 Target and Actual Compensation (\$ in thousands)

The chart above reflects salary, non-equity incentive plan compensation and equity awards but excludes other bonuses and other compensation as reported in the Summary Compensation Table. Actual compensation assumes performance-based equity awards granted in fiscal 2012 are not earned.

Relationship between Total Stockholder Return and Chief Executive Officer Compensation

The following chart illustrates the directional relationship between the Company's total stockholder return and Chief Executive Officer Compensation from fiscal 2010 through fiscal 2012.

- (1) Total Direct Compensation is equal to base salary, annual incentive awards, equity grant value and all other compensation, as reported in the Summary Compensation Table below.
- (2) Total Stockholder Return calculation assumes a stock price of \$6.63 for fiscal 2010, \$8.01 for fiscal 2011 and \$6.82 for fiscal 2012 (each the closing price on the last trading day of each respective fiscal year). The indexed calculation divides the fiscal year end price by the fiscal 2010 price.

Background and Compensation Philosophy

To achieve the Company's objectives, we need a highly talented and seasoned management team with the integrity, skills and dedication necessary to oversee a dynamic and growing organization and the vision to anticipate and respond to future market developments. Our executives must be capable of fulfilling the Company's long-term business strategy, including the successful integration of the TomoTherapy organization and technologies into our business.

The overarching compensation philosophy approved by the Compensation Committee for fiscal 2012 was to maintain an executive compensation program that emphasizes pay for performance, drives business growth and links stockholder value and executive interests.

The key objectives of the compensation philosophy include:

- Attract, retain, motivate and reward the top talent that is necessary to grow the CyberKnife market, make the most of the TomoTherapy acquisition, and drive future business success;
- Link short-term rewards with Company performance (both financial and strategic) and individual performance; and
- Link long-term rewards with the creation of stockholder value.

The foregoing principles and objectives form the foundation of our executive compensation philosophy, which is reflected in the various compensation elements—base salary, annual cash incentives, annual equity awards, performance equity awards and other benefits.

Compensation Process

The Compensation Committee oversees our executive compensation philosophy and administers our executive compensation program. The Compensation Committee is responsible for reviewing the performance and approving the compensation of our executives, including the NEOs. The independent members of our Board of Directors are responsible for reviewing the performance of our Chief Executive Officer and approving his compensation. The Compensation Committee is also responsible for reviewing and recommending to our Board of Directors the compensation of our non-employee directors and establishing and regularly reviewing the compensation and benefits policies for our executives and salaried employees. For additional information on the Compensation Committee, including the scope of its authority, see *Corporate Governance and Board of Directors Matters—Compensation Committee*, below.

At the beginning of each fiscal year, the Board of Directors, after consulting with management, establishes the corporate performance objectives for the Company and the Compensation Committee, after consulting with management, reviews and approves the individual performance objectives for each executive officer (other than the CEO) and makes decisions with respect to any base salary adjustment, target annual cash incentive award opportunities, and equity awards for our executives, including the NEOs, (other than the CEO) for the upcoming year. The independent members of the Board of Directors, with recommendations from the Compensation Committee, review and approve the individual performance objectives for the CEO, and make decisions with respect to any base salary adjustment, target annual cash incentive award opportunities and equity awards for our CEO. After the end of the fiscal year, the Compensation Committee assesses the performance of our executives, including the NEOs (other than the CEO) to determine the payouts for the annual cash incentive award opportunities for the previous year, and the independent members of our Board of Directors assess the performance of our CEO to determine his annual cash incentive award payout.

Role of Management

To aid in its deliberations, each year our CEO provides recommendations to the Compensation Committee regarding the individual compensation elements for each of our executives, including the NEOs (other than himself). Prior to formulating these recommendations, our CEO conducts an annual performance review of our other executives to evaluate their performance for the prior fiscal year. Our CEO then presents the results of these evaluations, along with his recommendations with regard to their compensation, including base salary adjustments, annual cash incentive award opportunities and payouts, and equity awards, to the Compensation Committee for its consideration. Similarly, our CEO's performance is reviewed annually by the Compensation Committee as well as the independent members of the Board of Directors as part of their deliberations with respect to his compensation.

Our CEO also meets with the Compensation Committee at the beginning of each year to assist the Compensation Committee in formulating the Company's performance objectives for each fiscal year and the individual performance objectives for each executive. For executive officers other than himself, the CEO considers performance and makes recommendations to the Compensation Committee with respect to base salary, annual incentive and long term equity compensation. In advance of making such recommendations, the Chief Executive Officer often consults with our Senior Vice President, Human Resources, who may discuss a range of pay for him to consider for executive officers other than our Senior Vice President, Human Resources and himself, which range is based on the Company's compensation philosophy, market data provided by the Compensation Committee's independent consultant, achievement of individual performance goals and objectives, and internal equity. The Compensation Committee reviews, discusses and modifies as appropriate the compensation recommendations made by the CEO.

The Compensation Committee itself makes recommendations regarding the compensation of the CEO to the independent members of the Board of Directors, who approve all elements of the CEO's compensation.

Typically, our CEO is present at Compensation Committee meetings where executive compensation and corporate and individual performance are discussed and evaluated (except when his own compensation and performance are discussed). From time to time, our Chief Financial Officer, General Counsel, and Senior Vice President of Human Resources may also attend Compensation Committee meetings at which executive compensation matters are discussed and participate in those discussions (except when their own compensation and performance are discussed).

Role of Compensation Consultants

The Compensation Committee has retained Compensia, Inc. ("Compensia") as its independent advisor to provide advice with respect to our compensation programs. Compensia advises the Compensation Committee with respect to trends in executive compensation, peer group selection, the determination of pay programs, the assessment of competitive pay levels and mix (for example, the proportion of fixed pay to incentive pay, and the proportion of annual cash pay to long-term incentive pay), and setting compensation levels. Compensia also consults with the Compensation Committee to formulate and design new programs to better align management performance with the interests of the Company's stockholders, for example, performance equity programs.

Compensia did not perform any other services for the Company or the Compensation Committee in fiscal 2012.

Competitive Positioning

For fiscal 2012, the Compensation Committee allocated the compensation of our executives, including our NEOs, between cash and equity based on an analysis of the data reflected in the Radford Survey for companies with \$200 to \$500 million in annual revenue, as well as an assessment of the Company's performance and compensation practices against a core peer group of 17 medical device companies which have similar financial and organizational characteristics (collectively, the "Relevant Market Data"). The Radford Survey is a survey of companies in the medical device, software, and other high-technology industries. The peer group of 17 medical device companies was recommended by Compensia and submitted to the Compensation Committee for its review. The final peer group for fiscal 2012 was approved by the Compensation Committee in May 2011.

The fiscal 2011 peer group had included 13 companies; however, the Compensation Committee decided to increase the size of the peer group in fiscal 2012 to 17 companies to provide more robust data samples. In addition, the Compensation Committee revised the criteria it used to identify peer companies in light of the changes in the Company following the TomoTherapy acquisition. Accordingly, the fiscal 2012 peer group was selected based on the following criteria:

Primary Factors:

- Similar business focus (i.e., companies that develop and design highly technical devices and that have at least 30% of their business from international operations);
- Total revenue of approximately \$200 million to \$900 million; and
- Positive revenue growth.

Secondary Factors:

- Employee population of up to approximately three times the number of employees of the Company;
- Market capitalization of two-thirds to three and a half times that of the Company; and
- Revenue per employee of one-half times to two times that of the Company.

Three companies (Cardiac Science, Healthtronics and TomoTherapy) were removed from the 2011 list because they had been acquired. The fiscal 2012 peer group approved by the Compensation Committee includes the following companies:

American Medical Systems Holdings, Inc.(1)	ICU Medical, Inc.	Sonosite, Inc.
AngioDynamics, Inc.	Integra LifeSciences Holdings Corporation	Thoratec Corporation
ArthroCare Corporation	Masimo Corporation	Volcano Corporation
CONMED Corporation	Merit Medical Systems, Inc.	Wright Medical Group, Inc.
Cyberonics, Inc.	Natus Medical Incorporated	ZOLL Medical Corporation
Haemonetics Corp.	NuVasive, Inc.	

(1) American Medical Systems Holdings, Inc. has been acquired since the May meeting of the Compensation Committee.

In addition to the above core peer group, for fiscal 2012, the Compensation Committee also approved a group of seven reference peers in order to provide key labor market compensation data and an understanding of the compensation practices of larger industry companies. The reference peers were selected based on the following criteria:

- Medical device, life science or pharmaceutical industry companies engaged in the development of technical products or pharmaceuticals that go through the clinical testing processes;
- Revenue of approximately \$1 billion to \$5 billion; and
- Based in the U.S., primarily in California.

The fiscal 2012 reference peers include the following seven companies:

Allergan, Inc.	Intuitive Surgical, Inc.	Varian Medical Systems, Inc.
Edwards Lifesciences Corporation	ResMed Inc.	Watson Pharmaceuticals, Inc.
Illumina, Inc.		

The table below reflects percentile estimates of how the fiscal 2012 compensation of our NEOs compares to the Company's fiscal 2012 Relevant Market Data.

<u>Incumbent</u>	<u>Title</u>	<u>2012 Estimated Pay Positioning vs. Market</u>					
		<u>Salary</u>	<u>Target Total Cash</u>	<u>Actual Total Cash</u>	<u>Equity/LTI Value</u>	<u>Target Total Direct Comp.</u>	<u>Actual Total Direct Comp.</u>

(1) Dr. Thomson resigned from the Company effective October 11, 2012.

The table below summarizes where we fall relative to our peer group with respect to each of our peer group criteria. Our fiscal 2011 revenue is pro-forma to reflect the TomoTherapy acquisition and

the number of employees used for purposes of this comparison reflects our headcount after acquiring TomoTherapy.

<u>Criteria</u>	<u>Accuray FY 2011</u>	<u>Target for Peer Group</u>	<u>2012 Peer Group Median (Data as of 6/30/11)</u>	<u>Approximate Accuray Percent Rank</u>
Revenue (\$MM)	\$ 408.0	0.5x - 2x	\$ 399.4	50th
Market Capitalization (\$MM)	\$ 561.2	0.5x - 3x	\$ 918.6	25th
Employees	1,078	0.5x - 2x	1,390	35th
Revenue per Employee	\$ 378,444	0.5x - 2x	\$ 299,109	75th

The Compensation Committee intends to annually review the composition of the peer group to ensure it is the most relevant set of companies to use for comparison purposes.

In evaluating the base salaries of our executives for fiscal 2012, establishing target award opportunities for annual cash incentive awards, and making equity awards, the Compensation Committee reviewed the Relevant Market Data to inform its decisions on individual compensation elements, including the competitive reasonableness of arrangements, and to ensure that its decisions were consistent with the Company's compensation philosophy and strategy. The Compensation Committee did not make its decisions based on targeting compensation to specific benchmarks against the survey and peer group data. The Compensation Committee took the above approach consistent with its intention to (i) set performance milestones for cash incentive compensation so that target level payouts would only be made if our executives and the Company performed at a superior level that would be difficult to achieve and (ii) provide our executives with the ability to earn above market compensation tied to performance in order to attract and retain the quality of executives necessary to successfully manage the Company.

The Compensation Committee used a similar process and similar criteria to identify the fiscal 2013 core and reference peer groups. Three companies (American Medical Systems Holdings, Inc., SonoSite, Inc. and Zoll Medical Corporation) were removed from the fiscal 2012 core peer group, but there were no other changes to the core peer list, resulting in a group of 14 core peers. The reference peer list remains identical in fiscal 2013 to the fiscal 2012 list.

Tally Sheets

At least annually, with the help of the compensation consultant, the Compensation Committee reviews each executive's compensation history for the past three years, including each component of compensation and how it compared to market data. The Compensation Committee also reviews tally sheets setting forth the expected value of annual compensation and benefits for each NEO, including base salaries, potential annual cash incentive payouts and minimum and maximum levels, long-term incentive compensation, including the number of stock options and restricted stock awards granted and the fair value at grant, and the annualized cost of other benefits. The tally sheets also set forth the accumulated value of benefits and compensation to each NEO, including the accumulated value of equity grants and the accumulated value of potential payouts under different separation scenarios, including under our severance and change of control arrangements. Reviewing tally sheets each year facilitates the Compensation Committee's evaluation of the reasonableness of the total accumulated value of the compensation and benefits provided to each NEO. For fiscal 2012, the tally sheets served as a useful check on total annual compensation for each executive officer and relative compensation among the executive officers, but did not affect any specific decision relating to the NEOs' annual compensation.

Pay for Performance

We believe that there should be a strong relationship between pay and performance and our executive compensation program reflects this belief. In particular, annual cash incentive awards and equity awards represent a significant portion of our executive compensation program, as reflected in the chart below, and this variable compensation is considered "at-risk" as it is directly dependent upon the achievement of pre-established goals and/or stock price appreciation and performance:

- Annual cash incentives, paid under the Performance Bonus Plan, are intended to link executive rewards to Company and individual performance, upon achieving pre-determined goals. The bonus pool only funds if the Company achieves pre-determined performance metrics, making these cash incentives entirely at risk. If the bonus pool funds, 65% of each executive's bonus is tied to Company performance. The remaining 35% of the pool is allocated based on the achievement of individual performance metrics. Accordingly, if the bonus pool does not fund, no executive would be entitled to any cash incentive under the Performance Bonus Plan at all, regardless of such executive's performance against his or her individual performance goals. Even if the pool funds and the metrics are achieved, the Compensation Committee may exercise negative discretion to reduce the size of the awards, as it chose to do with respect to Dr. Thomson, our former CEO, where they reduced the 35% target opportunity to 0% for fiscal 2012.
- The exercise price of stock options granted under our equity incentive plans is equal to the fair market value of the common stock on the date of grant, so the options will yield value to the executives only if the stock price appreciates.
- Full-value awards (in the form of RSUs) without performance criteria remain a minority component of the executive's equity awards. The Compensation Committee believes that this element offers a strong retention component to our overall compensation program.
- In fiscal 2012, the Company awarded performance-based grants of restricted stock units (PSU Program) to executives, which will vest only upon the achievement of performance goals established by the Compensation Committee, thereby putting a greater percentage of executive compensation at-risk, linking a greater percentage of executive compensation to measures of our business success, and further linking our executives' compensation to the creation of long-term stockholder value.
- As noted above, in fiscal 2013, the Compensation Committee approved our MSU Program with performance periods ending in fiscal 2014 and fiscal 2015, further linking the compensation of participants in this program to the creation of long-term stockholder value.

Compensation Elements

During fiscal 2012, the compensation of our executives, including the NEOs, consisted of the following elements:

- Base salary;
- An annual cash incentive award opportunity;
- Equity awards; and
- Other benefits.

Base Salary

We believe that a competitive base salary is the essential foundation to providing an appropriate total direct compensation package for our executives, including the NEOs. We use base salary to fairly

and competitively compensate our executives for the jobs we ask them to perform. We view base salary as the most stable component of our executive compensation program, as this amount is not at risk.

The Compensation Committee makes adjustments to base salary when it believes there is a deviation from market, when an individual is promoted or assumes an increase in responsibility, or when the Compensation Committee determines that an individual's performance warrants an increase. The Compensation Committee reviews the base salary levels of our executives each year to determine whether an adjustment is warranted.

In reviewing the base salaries of our executives during fiscal 2011, the Compensation Committee considered the 50th to 60th percentiles of the Relevant Target Data, but did not target pay in this range. Rather, the Compensation Committee considered each executive's performance against his or her goals and objectives over the previous fiscal year as evaluated by our CEO, his or her experience and responsibilities, the critical nature of the executive's position relative to the Company's success, the Company's retention needs, and the Relevant Market Data. In formulating his recommendations to the Compensation Committee with respect to base salary adjustments, our CEO also considered internal equity among our executives.

For fiscal 2012, the Compensation Committee moderately increased the base salaries of the NEOs from their fiscal 2011 levels. The base salaries of Dr. Thomson, Mr. Bertocci and Mr. Milliken were increased by approximately 3.5%. Mr. Raanes's salary increased by 9.5%, in connection with his promotion from Senior Vice President to Executive Vice President. Ms. Londy was hired during fiscal 2012 and her base salary was set at the time of hire and has not increased. The base salaries paid to the NEOs during fiscal 2012 are reported in the Summary Compensation Table below.

For fiscal 2013, the Compensation Committee recommended to the independent members of the Board of Directors, and such independent directors determined, to leave the base salary for Dr. Thomson unchanged from the level set for fiscal 2012. With respect to the other NEOs, for fiscal 2013 the Compensation Committee approved an increase to Mr. Milliken's base salary of 10% and increases of 3% to the respective base salaries for Messrs. Bertocci and Raanes and for Ms. Londy. For fiscal 2013, the Compensation Committee set the base salaries of the NEOs, effective October 1, 2012, as follows:

<u>Named Executive Officer</u>	<u>Fiscal 2012 Salary(1)</u>	<u>Fiscal 2013 Salary(1)</u>
Euan S. Thomson, Ph.D.	\$ 530,500	\$ 530,500(2)
Derek Bertocci	\$ 322,920	\$ 332,600
Chris A. Raanes	\$ 386,848	\$ 398,500
Kelly Londy	\$ 320,000	\$ 329,600
Darren J. Milliken	\$ 259,035	\$ 284,900

- (1) Note, the salaries reflected for both fiscal 2012 and fiscal 2013 became effective on October 1 of each such year, respectively.
- (2) The base salary amount listed above reflects the amount Dr. Thomson would have received had he remained with the Company for all of fiscal 2013. Dr. Thomson resigned from our Company effective October 11, 2012.

For fiscal 2013, the annual base salary for Mr. Levine, our current President and Chief Executive Officer, was set at \$625,000. For additional information regarding Mr. Levine's compensation, see "*Employment, Change in Control and Severance Agreements*" below.

Annual Cash Incentives

Annual cash incentive awards serve to reinforce our performance-based culture. On average, the Compensation Committee believes in providing our executives, including the NEOs, with a total target cash compensation opportunity above the market median tied to the achievement of challenging pre-established corporate and individual performance objectives. As with base salary, each executive's annual cash incentive opportunity is set with reference to each executive's performance over the previous fiscal year as evaluated by our Chief Executive Officer, his or her experience and responsibilities, the critical nature of the executive's position relative to the Company's success, the Company's retention needs, and the Relevant Market Data.

During the first quarter of each fiscal year, the Compensation Committee reviews and approves the corporate and individual performance objectives for the current fiscal year's annual cash incentive awards and reviews and approves the target award opportunity for each executive, including the NEOs, but excluding the CEO, whose performance objectives and target award opportunity are reviewed and approved by the independent members of the Board of Directors. For fiscal 2012, the target award opportunity for Dr. Thomson was equal to 100% of his base salary, the target award opportunities for Messrs. Bertocci and Raanes and Ms. Londy were equal to 65% of their respective salaries, and the target award opportunity for Mr. Milliken was equal to 50% of his base salary. These target percentages were unchanged from the prior fiscal year for each executive who was employed by the Company in the prior fiscal year. The Compensation Committee recognizes that the performance of certain of the NEOs has a greater potential to impact our successful implementation of our overall strategy and achievement of our financial performance and therefore believes it is appropriate that the target award opportunities of those executives be higher than the opportunity for others.

Fiscal 2012 Cash Incentive Award Opportunities and Payouts

Our executives, including the NEOs, are eligible to participate in the Performance Bonus Plan, which was adopted by the Compensation Committee and approved by the Company's stockholders at our 2009 Annual Meeting. The Performance Bonus Plan has been structured and is operated with the intent that the compensation paid under the Performance Bonus Plan will qualify for deductibility under Section 162(m) of the Code. The rules and regulations promulgated under Section 162(m) are complicated, however, and subject to change from time to time, sometimes with retroactive effect. In addition, a number of requirements must be met in order for particular compensation to so qualify. As such, there can be no assurance that any compensation awarded or paid under the Performance Bonus Plan will be fully deductible under all circumstances. For fiscal 2012, our annual cash incentive awards were designed to reward our executives, including the NEOs, based on the Company's performance and the individual executive's contribution to that performance. In establishing the fiscal 2012 cash incentive award program, the Compensation Committee determined that the award opportunities for all of our executives, including the NEOs, should be closely linked to achieving corporate performance objectives.

The bonus pool under the Performance Bonus Plan only funds if the corporate performance objectives established by the Compensation Committee are achieved at threshold levels established by the Committee, making these cash incentives entirely at risk. For each NEO, 65% of the target award payment is based on our Company's performance and 35% of the target award payment is based on achievement of individual performance metrics, but both components are contingent on the bonus pool funding and are therefore entirely at risk. Accordingly, if the bonus pool does not fund, no executive would be entitled to any cash incentive under the Performance Bonus Plan, regardless of such executive's performance against his or her individual goals.

To the extent the bonus pool funds, the Performance Bonus Plan entitles each executive to 65% of the funded percentage of his or her target award payment due to Company performance, provided that the Compensation Committee may exercise negative discretion to reduce the overall funding percentage and/or to reduce any individual award. The Compensation Committee (and the independent members of the Board of Directors, for our CEO) has discretion to award more or less than the remaining 35% of the funded percentage of each executive's target award, provided that payments to the executive team as a whole may not exceed pro-rata funding of the bonus plan (such that the executive team as a whole may not receive greater than the funded percentage of the target awards payable to that group as a whole), and in no case may any executive receive in excess of 150% of his or her target award for fiscal 2012. For fiscal 2012, the Compensation Committee exercised its negative discretion to reduce Dr. Thomson's 35% target opportunity to 0%.

For fiscal 2012, the Compensation Committee established three specific corporate performance measures, namely revenue, gross margin and backlog. The backlog performance measure was separated into our CyberKnife® ("CK") and TomoTherapy® ("TT") system sales. The performance measures were applicable in the same manner to all of our executives, including the NEOs. The Compensation Committee set target amounts and minimum funding thresholds with respect to each performance measure, requiring that the Company achieve the minimum threshold set for each measure, in order for any funding to occur relative to that measure. The performance measures and their relative weightings, target amounts and minimum funding thresholds for fiscal 2012, as well as the actual performance measures attained and their respective weights, were as follows:

<u>Performance Measure</u>	<u>Weighting</u>	<u>Target</u>	<u>Minimum Threshold</u>	<u>Actual</u>	<u>% Plan Attained</u>	<u>Weighted % Plan Attained</u>
Revenue	40%	\$430 million	\$398 million (92.6%)	\$401.3 million	93.3	19.3
Gross Margin	30%	37.4%	34.5% (92.2%)	38.6%	103	128
Net Dollars into to Backlog (CK)	15%	\$178.9 million	\$165.7 million (92.6%)	\$124.1 million	69.4	0
Net Dollars into to Backlog (TT)	15%	\$116.3 million	\$76.6 million (65.9%)	\$128.7 million	110.7	150

Each measure will be calculated based on non-GAAP numbers, which will be calculated in a manner consistent with the non-GAAP numbers reported in our quarterly earnings releases, provided that the Compensation Committee may, in its discretion, approve additional exclusions in the nature of one-time occurrences, extraordinary items or events outside management's control. To be reported in our backlog, an order must meet the Company's fiscal 2012 backlog criteria. The Compensation Committee assessed corporate performance with respect to each of the three performance measures and determined that threshold performance had been achieved for each measure. The funding with respect to each measure was based on a funding slope in a straight line from ten percent at the minimum threshold level, to 100%, at the target amount. In the event any of the performance measures had been achieved at greater than the target level, the funding would also be based on a straight line from 100% at target to the maximum funding opportunity for each metric at 150% funding.

Based on these actual corporate performance results, the funding methodology resulted in funding of the bonus plan pool at 68.6% of the target level. As noted above, for each of our executives, including the NEOs, 65% of their annual cash incentive awards were dependent on achieving the corporate performance measures described above, and 35% were dependent on achieving individual qualitative performance goals and objectives, which are discussed below. Individual qualitative goals and objectives, which were generally tailored to each individual executive's functional area of responsibility, were established for each executive in September 2011 (other than Ms. Londy, who joined the Company in October 2011). For fiscal 2012, the primary individual performance objective for

each of our NEOs was to work toward achieving the corporate performance objectives described above. In addition, each NEO was given several individual management objectives, as follows:

- Dr. Thomson's principal individual management objectives included revenue growth, backlog growth, gross margin improvement, progress toward profitability, product development progress, and strategic clinical growth.
- Mr. Bertocci's principal individual management objectives included managing the consolidation of our European operations in Switzerland, managing investor relations, consolidating our ERP system, hiring Finance and IT managers and staff to support the combined Company, and implementing synergies in order to ensure an efficient worldwide structure.
- Mr. Raanes's principal individual management objectives included improvement of the TomoTherapy System reliability and service profitability, product development progress, continued management and implementation of the Company's operational excellence program, revenue growth, progress toward profitability, managing the consolidation of our European operations in Switzerland, and providing leadership to the Company's Madison campus.
- Ms. Londy's principal individual management objectives included growing the Company's radiation therapy business and CyberKnife adoption, backlog growth, improving TomoTherapy's service profitability, driving commercial excellence through the Company's operational excellence and risk management programs and increasing the Company's global presence.
- Mr. Milliken's principal individual management objectives included successful completion of the convertible debt offering, managing international restructuring in light of the TomoTherapy acquisition, supporting the consolidation of our European operations in Switzerland, managing the integration of specified systems of TomoTherapy, including with respect to customer quoting, distributor alignment and equity plans, and progress toward profitability.

The annual cash incentive award targets and payouts made to the NEOs in fiscal 2013 for fiscal 2012 performance were as follows:

Fiscal 2012 Performance Bonus Plan Payouts

Named Executive Officer	Target		Fiscal 2012 Total Actual Opportunity \$(1)	Actual Payout		
	(%)	(\$)		Bonus Amount tied to Company Performance (\$)	Bonus Amount tied to Individual Performance (\$)	Total Payout
Euan S. Thomson, Ph.D.(2)	100%	526,000	360,836	234,543	0	234,543
Derek A. Bertocci	65%	209,898	143,990	93,594	50,397	143,990
Chris A. Raanes	65%	251,451	172,496	112,122	60,373	172,496
Kelly Londy	65%	208,000	142,688	92,747	49,941	142,688
Darren J. Milliken	50%	129,518	88,849	57,752	31,097	88,849

- (1) The fiscal 2012 Total Actual Opportunity is derived by multiplying the approximate 68.6% funding level by the at-target annual cash incentive award opportunity for each NEO.
- (2) Dr. Thomson resigned from the Company effective October 11, 2012.

The collective payouts to the executive officers did not exceed their pro-rata funding of the bonus plan. The annual incentive award payouts for fiscal 2012 performance made to the NEOs are reported in the Summary Compensation Table below. Additional information about these awards is reported in the Grants of Plan-Based Awards Table below.

Fiscal 2013 Cash Incentive Awards—Performance Bonus Plan

For fiscal 2013, weighting of metrics in the Performance Bonus Plan were adjusted as follows:

<u>Revenue</u>	<u>Net Dollars into Backlog</u>	<u>Gross Margin</u>
30%	50%	20%

Each measure will be calculated based on non-GAAP numbers, which will be calculated in a manner consistent with the non-GAAP numbers reported in our quarterly earnings releases, provided that the Compensation Committee may, in its discretion, approve additional exclusions. To be reported in our backlog, an order must meet the Company's fiscal year 2013 backlog criteria.

The target bonuses for our NEOs, as a percentage of base salary, did not change from their prior year's percentages. As in fiscal 2012, 65% of each executive's annual cash incentive awards will be dependent on achieving the corporate performance measures, and 35% will be dependent on achieving their individual qualitative performance goals and objectives.

Equity Compensation

We believe that equity awards provide a strong alignment between the interests of our executives, including the NEOs, and our stockholders. Accordingly, the Compensation Committee seeks to provide motivation to our executives through the use of equity awards consistent with the reasonable management of the Company's overall equity compensation expense and stockholder dilution. The Compensation Committee grants equity awards to our executives, including the NEOs, in the first quarter of each fiscal year, as a reward for past corporate and individual performance, as an incentive for future performance, and as a retention tool. Historically our executive equity awards consisted entirely of stock options and restricted stock unit ("RSU") awards, but in fiscal 2012, our executives were granted performance-based RSUs (or "PSUs") in addition to stock options and RSUs. The size of an executive's equity award is determined by the Compensation Committee after considering his or her performance against his or her individual goals and objectives over the last fiscal year as evaluated by our CEO (or, with respect to the CEO, as evaluated by our Board of Directors), an evaluation of his or her total compensation package, an evaluation of his or her accumulated equity holdings, the critical nature of the executive's position relative to the Company's success, the Company's retention needs, the Relevant Market Data, internal equity, role hierarchy and such other factors as the Compensation Committee determines relevant.

Fiscal 2012 Equity Awards

For fiscal 2012, the CEO proposed grant numbers to the Compensation Committee for each of the executive officers, other than himself. The Compensation Committee reviewed the CEO's recommendations, and after assessing each executive's individual performance and outstanding equity holdings, internal equity, role hierarchy and retention needs, determined the awards it wished to approve for each executive, other than the CEO. For each of the executives other than the CEO, the Compensation Committee decided to award a mix of equity vehicles that include stock options, RSUs and PSUs, such that, on average, approximately 50% of the shares granted were in the form of stock options, 13% were in the form of RSUs, and 37% were in the form of PSUs. However, for Dr. Thomson, our former CEO, the independent members of our Board of Directors decided to award a mix of equity vehicles such that approximately 36% of the shares granted were in the form of stock options, 14% were in the form of RSUs and 50% were in the form of PSUs.

The Compensation Committee believes that tying a portion of the executives' equity to performance criteria better aligns the executives' goals with both the Company's strategic plans and with the interests of the Company's stockholders. Because the CEO is ultimately responsible for the Company achieving its strategic objectives, the independent members of our Board of Directors believe

it appropriate to award a greater portion of his equity in PSUs. The PSUs will vest based on the achievement of certain pre-determined goals by the end of a two year performance period, ending on June 30, 2013 for all NEOs. Currently outstanding PSUs will vest upon the achievement of certain goals linked to our revenue and profitability which will need to be achieved by June 30, 2013. As of June 30, 2012, we did not believe that the pre-determined goals would be met within the performance period and hence have not accrued for these awards in our financials in accordance with relevant accounting guidance. In the event that the performance goals are not met, the PSUs will be automatically forfeited on the last day of the performance period.

Through fiscal 2011, pursuant to Dr. Thomson's employment letter agreement, we had agreed to grant Dr. Thomson an option to purchase 40,000 shares of our common stock not later than the first regularly scheduled meeting of our Board of Directors of each calendar year during his employment, subject to approval by our Board of Directors. Effective October 1, 2011, however, Dr. Thomson's employment letter agreement was amended such that it eliminated his guarantee to receive an annual option to purchase 40,000 shares of common stock at the beginning of each calendar year.

The equity awards made to the NEOs in fiscal 2012 are reported in the Summary Compensation Table below. Additional information about these awards, including the number of shares subject to each award and the award's grant date fair value, is reported in the Grants of Plan-Based Awards Table below.

Fiscal 2013 Equity Awards

Equity awards for fiscal 2013 consist of a mix of equity vehicles, including stockoptions, RSUs and MSUs, and generally 35% of the shares granted were in the form of stock options, 40% were in the form of RSUs, and 25% were in the form of MSUs. The amount of equity, if any, awarded by the Compensation Committee to executive officers varies based upon an executive's individual performance, an evaluation of his or her total compensation package, an evaluation of his or her accumulated equity holdings, the critical nature of the executive's position relative to the Company's success, the Company's retention needs, the Relevant Market Data, internal equity, role hierarchy and such other factors as the Compensation Committee determines relevant. Equity awards for fiscal 2013 for Mr. Levine were determined as a result of negotiations concerning his joining us as our President and Chief Executive Officer. For additional information regarding such awards, see "*Employment, Change in Control and Severance Agreements*", below.

Patent Award Program

The Company maintains a patent award program, the purpose of which is to encourage, recognize and reward creativity and innovation. All regular, full time Company employees, including executives, are eligible to participate in this program. Various levels of awards are provided to encourage and reward identification and submission of invention disclosures, subsequent filing of patent applications and final issuance of a United States patent. The various awards provided under the program are as follows:

- \$50 is awarded to each named employee on an invention disclosure.
- \$1,000 is awarded to each named inventor in an original non-provisional patent application filed with the U.S. Patent and Trademark Office.
- \$2,000 is awarded to each named inventor in an issued U.S. patent.
- In the event more than three inventors file patent applications or are granted patents, the maximum awards are \$3,000 and \$6,000, respectively, to be shared equally among the inventors who are Company employees. Inventors who are not full-time Company employees at the time the award is made are not eligible to receive the award.

Awards are made on the last day of the fiscal quarter in which the award was earned. The Company's patent committee or Senior Vice President and General Counsel may increase the monetary awards identified above on a case-by-case basis in extraordinary circumstances.

In addition, it is the Company's practice to reimburse employees who receive awards under the program for any taxes they are required to pay with respect to such awards due to the potential benefits that ultimately pass through to the Company as a result of the successful use of the patented technology.

In fiscal 2012, Dr. Thomson was granted awards under the Company's patent award program, which are reflected in the Summary Compensation Table below.

Employment, Change in Control and Severance Arrangements

We have entered into employment agreements with each of our executives, including the NEOs, to document the material terms and conditions of the executives' employment, including his or her annual base salary, target annual cash incentive award opportunity and equity awards. The agreements specify the payments and benefits that each executive will receive upon a potential termination of his or her employment under certain circumstances. In addition, these agreements protect the Company's interests in the event of a termination of employment by stipulating the rights and responsibilities of the parties and prohibiting these individuals from engaging in certain specific activities harmful to the Company, including disclosing the Company's confidential information, soliciting the Company's employees, and engaging in certain competitive business activities.

These arrangements were entered into for the following reasons:

- Assist us in retaining talented executives in a competitive market;
- Permit our executives to focus on the business of the Company;
- Eliminate any potential personal bias of an executive against a transaction that is in the best interest of the Company and its stockholders;
- Avoid the need for, and costs associated with, individually negotiating severance payments and benefits with our executives; and
- Provide the Company with the flexibility needed to react to a continually changing business environment.

The Compensation Committee believes that these agreements serve several important objectives. First, they provide a desired level of transparency, both within and outside the Company. Internal transparency benefits the Company by eliminating the need to negotiate severance benefits on a case-by-case basis at the time of termination. They also assure our executives that their severance benefits are based on a consistent framework that differentiates the level of payments and benefits between individuals based on their position and level of responsibility. In addition, this approach is easier for the Company to administer and requires less administrative time and expense than negotiating severance benefits at the time of termination.

Generally, our executives, including the NEOs, are eligible for severance payments and benefits in the event of the termination of their employment by the Company without "cause" or by the executive for "good reason". We believe that the agreements contain severance provisions that are generally comparable to the benefits of similarly situated executives in a peer group established by the Compensation Committee, in each case, provided that the executive executes a general release of claims.

In the case of our NEOs, their employment letter agreements include a two year term and the NEOs are eligible for severance payments and benefits if the Company fails to extend the term of their

employment letter agreement or offer a new agreement with a term of at least two years or in the event of the executive's termination within three months before or twelve months following a change in control of the Company. Effective July 25, 2011, we entered into an amendment to Mr. Raanes's employment letter agreement to reflect his promotion from Senior Vice President, Chief Operating Officer to Executive Vice President, Chief Operating Officer.

In connection with his resignation and separation from the Company in October 2012, we are in the process of negotiating a General Release and Separation Agreement (the "Separation Agreement") with Dr. Thomson in accordance with the terms of his employment letter agreement with us. In addition, we are also negotiating the terms of a Consulting Services Agreement with Dr. Thomson whereby Dr. Thomson would provide us with consulting services in exchange for a monthly consulting fee of \$20,500.

Effective October 12, 2012, we entered into an Employment Agreement with Mr. Levine in connection with his appointment as our President and Chief Executive Officer. Mr. Levine's Employment Agreement provides for an annual base salary of \$625,000 as well as for reimbursement of reasonable business expenses and temporary housing expenses for up to 90 days, and for other customary benefits. Mr. Levine is also eligible for an annual performance bonus pursuant to the Company's Performance Bonus Plan, with the target amount of such bonus set at 120% of Mr. Levine's annual base salary. Mr. Levine's Employment Agreement provides for the Company to grant to Mr. Levine a stock option to purchase 200,000 shares of the Company's common stock at a per share exercise price equal to the fair market value of a share of the Company's stock on the grant date. Such options shall vest at a rate of 25% on the first anniversary of the grant date and thereafter at a rate of $\frac{1}{48}$ th of the options monthly until the options are fully vested on the fourth anniversary of the grant date. Mr. Levine's Employment Agreement also provides for the grant to him of (i) 200,000 RSUs which are to vest in four equal annual installments and (ii) a total of 300,000 Company stock performance-based market stock units, of which 100,000 market stock units are to be granted in November 2012 and 200,000 market stock units are to be granted in February 2013. Mr. Levine's agreement contains customary benefits and non-disclosure and non-solicitation provisions.

Mr. Levine is entitled under his Employment Agreement to severance benefits in the event of termination of his employment by the Company without cause, including a lump sum payment equal to the amount of base salary he would be due in the 12 months following a termination without cause, a prorated portion of his target bonus for the fiscal year in which his employment terminates, reimbursement of insurance premiums, payment for outplacement services and other customary benefits. In the event of Mr. Levine's termination of employment because of death or incapacity, Mr. Levine's Employment Agreement provides for the acceleration of the vesting period for stock options and RSUs previously granted to Mr. Levine that would have vested within 12 months of his termination. In the event of a change in control of the Company (as defined in the agreement) in which the successor company fails to offer Mr. Levine the position of President and Chief Executive Officer or fails to assume the Company's obligation under the Employment Agreement, Mr. Levine shall be entitled to enhanced severance benefits, including two times the severance payment otherwise provided for in the Employment Agreement, 200% of the target bonus for the fiscal year in which the change in control occurs, and the acceleration of all outstanding unvested stock options and RSUs, as well as other customary benefits.

Post-Employment Compensation—Retirement Plans

Other than our tax-qualified Section 401(k) employee savings plan described in the following paragraph, we do not currently maintain, nor do we have plans to provide, pension arrangements, retirement plans or nonqualified deferred compensation plans or arrangements for our executives, including the NEOs, and other employees.

We maintain a tax-qualified Section 401(k) employee savings plan that provides all regular employees with an opportunity to save for retirement on a tax-advantaged basis. Under this plan, participants may elect to defer a portion of their annual compensation on a pre-tax basis and have it contributed to the plan subject to applicable annual Code limits. Pre-tax contributions are allocated to each participant's individual account and are then invested in selected investment alternatives according to the participants' directions. The Company matches 50% of participant contributions to the plan, up to a maximum contribution of six percent of base salary per participant per year. Company matching contributions to the 401(k) employee savings plan vest over a period of four years, with the vesting percentage increasing by 25 percentage points on each of the first four anniversaries of an employee's service, such that on the fourth anniversary of an employee's service, the employee is fully vested in the Company matching contribution. As a tax-qualified retirement plan, contributions to the plan and earnings on those contributions are not taxable to participants until distributed from the plan and all contributions are deductible by us when made.

We view this plan as serving two important objectives. First, it encourages our executives, including the NEOs, and other employees to commit to long-term service with the Company. Second, it enables them to save a portion of their annual compensation for their eventual retirement.

Since the amounts set aside for retirement under the plan are largely drawn from participants' annual compensation and the Company matching contribution is modest, the Compensation Committee does not consider plan participation when making compensation decisions for our executives, including the NEOs.

Health, Welfare, and Other Employee Benefits (including Perquisites)

We provide health and welfare benefits to our executives, including the NEOs, on the same terms and conditions as all of our full-time, salaried employees. These benefits include group medical, life, and disability insurance and matching Company contributions to our Section 401(k) employee savings plan.

In circumstances where the Company is recruiting a candidate who would have to move to accept our job offer, the Company may agree to reimburse certain of such employee's relocation expenses. For example, the Company agreed to reimburse Ms. Londy for certain temporary housing expenses, expenses incurred in connection with home buying trips, home sale and home purchase expenses, moving expenses and travel expenses. The Company also agreed to reimburse Mr. Levine for temporary housing expenses for a period of up to 90 days.

We do not provide perquisites or other personal benefits to our executives, including the NEOs.

Other Compensation Policies

Stock Ownership Guidelines

In May 2011, our Board of Directors adopted Amended and Restated Corporate Governance Guidelines to help ensure that the Company is managed in the best long term interests of the Company's stockholders, to promote effective functioning of the Board of Directors and its committees and to provide a flexible framework within which the Board of Directors may conduct its oversight of the Company's business. The Corporate Governance Guidelines include executive officer and non-employee director stock ownership guidelines, which were amended and restated effective July 1, 2011 to become requirements rather than merely guidelines. Effective March 23, 2012, the non-employee director stock ownership requirements were further amended, requiring each non-employee director to own shares of the Company's common stock equal to three times the amount of director's regular annual cash retainer. The Corporate Governance Guidelines now require certain

executive officers and non-employee directors of the Company to own shares of the Company's common stock, as follows:

- *Non-employee directors:* the number of shares having a value equal to at least three times the non-employee director's regular annual cash retainer;
- *Chief Executive Officer:* the lesser of (a) the number of shares having a value equal to three times annual base salary and (b) 175,000 shares;
- *Chief Financial Officer, Chief Operating Officer and Chief Commercial Officer:* the lesser of (a) the number of shares having a value equal to one times annual base salary and (b) 40,000 shares; and
- *General Counsel:* the lesser of (a) the number of shares having a value equal to one times annual base salary and (b) 17,500 shares.

Executive officers and non-employee directors and executive officers have five years from the later of July 1, 2010 and the date of election or appointment to attain the foregoing ownership levels. The Company expects each executive officer and non-employee director to retain at least 25% of the net shares he or she receives pursuant to all Company equity awards (excluding shares sold to cover (i) the exercise price of any Company options and/or (ii) taxes), until the foregoing ownership levels are achieved. All of the NEOs who have been employed by the Company for more than one year are in compliance with the stock ownership requirements.

Recoupment ("Clawback") Policy

To further align our executive compensation program with the interests of the Company's stockholders, the Company's Performance Bonus Plan and 2007 Incentive Award Plan include a recoupment policy, which provides that, in the event the Company is required to restate its financial results or materially reduce publicly disclosed backlog figures, our Board of Directors will review the conduct of executive officers in relation to the restatement. If it determines that an executive officer has engaged in misconduct, or otherwise violated the Company's Code of Conduct and Ethics for Employees, Agents and Contractors, and that such misconduct or violation contributed to the restatement or to the improper inclusion of a proposed system sale in publicly disclosed backlog, then our Board of Directors may, in its discretion, take appropriate action to remedy the misconduct or violation, including, without limitation, seeking reimbursement of any portion of any performance-based or incentive compensation paid or awarded to the executive officer that is greater than what would have been paid or awarded if calculated based on the restated financial results or materially reduced backlog figures, to the extent not prohibited by governing law. Our clawback policy will be updated and revised consistent with any changes in applicable laws.

Equity Award Grant Practices

Historically, the Compensation Committee has granted stock options and/or RSU awards to our employees, including our executives, when they first join the Company. Typically, new hire stock options and RSUs (including awards of PSUs in fiscal 2012) are granted at the first meeting of the Compensation Committee in the month following an employee's first day of employment.

Follow-on awards are considered as part of our fiscal review process. We do not seek to time the grant of stock options and RSUs (including PSUs) to take advantage of information, either positive or negative, about the Company that has not been publicly disclosed.

We grant stock options with an exercise price that is equal to the fair market value of the shares of the Company's common stock on the date of grant. We do not have a policy of granting stock options with an exercise price that is less than the fair market value of the Company's common stock. The

exercise price for our stock options is based on the last quoted price per share of the Company's common stock as reported on the NASDAQ Global Select Market on the date of grant.

We also have an insider trading policy that prohibits trading in shares of the Company's common stock while in possession of material, non-public information, unless trading is in connection with a previously established Exchange Act Rule 10b5-1 plan, or if sold automatically by the Company on the date of vest to cover and pay the withholding tax requirements in accordance with Company policy.

Regulatory Considerations

Section 162(m)—Deductibility of Remuneration in Excess of \$1 Million

Section 162(m) of the Code limits the amount that the Company may deduct as compensation expense for federal income tax purposes with respect to the remuneration paid to our Chief Executive Officer and each of the three other most highly compensated executive officers of the Company (other than our Chief Financial Officer) to \$1 million per person per year. There are certain exemptions to this deduction limit, including an exemption for remuneration that qualifies as "performance-based compensation" (that is, certain compensation that is payable solely upon achieving objective performance criteria).

We intend to operate our executive compensation program to maximize the deductibility of the remuneration paid to the NEOs to the extent that the Compensation Committee believes that doing so is in the best interests of the Company. Consequently, in determining which compensation elements are to be paid to our executives, and how they are weighted, the Committee intends to take into account whether a particular form of compensation will be deductible under Section 162(m). In addition, the Company's 2007 Incentive Award Plan has been designed to permit the Committee to grant stock options and other awards which will qualify as "performance-based compensation" under Section 162(m), and the Company's Performance Bonus Plan has also been designed to permit the annual incentive compensation grants made to executives to qualify as "performance-based compensation" under Section 162(m). The rules and regulations promulgated under Section 162(m) are complicated, however, and subject to change from time to time, sometimes with retroactive effective. In addition, a number of requirements must be met in order for particular compensation to so qualify. As such, there can be no assurance that any compensation awarded or paid under the Plan will be fully deductible under all circumstances.

While we cannot predict how the \$1 million deduction limit may impact our executive compensation program in future years, the Compensation Committee intends to maintain an approach to executive compensation that strongly links pay to performance. However, the Committee may, in its judgment, authorize and pay compensation that does not satisfy the requirements of this or any of the other exemptions to the \$1 million deduction limit when it believes that such compensation is necessary and appropriate to attract and retain key executives.

EXECUTIVE COMPENSATION

Summary Compensation Table

The following table sets forth the compensation for each of fiscal years 2012, 2011 and 2010 earned by our then principal executive officer, principal financial officer, the three other highest paid executive officers, including one new executive officer who was one of the three most highly compensated executive officers during fiscal year 2012 and one executive officer who was not one of the three most highly compensated executive officers during fiscal 2011 or 2010 but is now one of the

three most highly compensated executive officers during fiscal 2012. We refer to these executive officers as our NEOs.

Grants of Plan-Based Awards for Fiscal 2012

The following table sets forth summary information regarding grants of plan-based awards made to each of our NEOs during the fiscal year ended June 30, 2012. The per share exercise price of each stock option grant was not less than the fair market value of our Company's common stock on the date of grant (which, in the case of options granted after our initial public offering, was the closing price of a share of our common stock on the NASDAQ Global Select Market on the date of grant).

- (1) The Estimated Future Payouts Under Non-Equity Incentive Plan Awards columns refer to the potential payouts under our Performance Bonus Plan.
- (2) This column reflects the threshold award opportunity that would have been payable to the NEOs for our fiscal year ended June 30, 2012, assuming that exactly the minimum threshold amount for each of the three performance measures under the Performance Bonus Plan is achieved, resulting in 10% funding of the Performance Bonus Plan pool. In the event of a 10% funding of the Performance Bonus Plan, each executive would be entitled to 10% of the 65% of such executive's target award amount attributable to Company performance. The calculations in this column assume a determination by our Board of Directors that each NEO achieved his or her individual qualitative performance goals such that he or she was entitled to exactly the 10% funded amount of the 35% of his or her annual cash incentive award tied to such executive's individual performance. The potential payments are, however, performance-driven and therefore entirely at risk, such that if the Company had not met any of the minimum thresholds, the Performance Bonus Plan pool would not have funded at all, and none of the NEOs would have been entitled to any incentive award.
- (3) This column shows the annual target award opportunities that were available to the NEOs for our fiscal year ended June 30, 2012, assuming that exactly the target amount for each of the three performance measures under the Performance Bonus Plan is achieved, resulting in 100% funding of the Performance Bonus Plan pool. The calculations in this column assume a determination by our Board of Directors that each NEO achieved the individual qualitative performance goals such that he was entitled to full funding of the 35% of his annual cash incentive award tied to such individual performance.
- (4) The maximum award opportunity is calculated at 150% of the target.
- (5) Unless otherwise noted, the RSU awards reflected in this column will vest in annual installments over four years from the vesting commencement date on October 1, 2011.

- (6) Unless otherwise noted, the option grants reflected in this column will vest and become exercisable in equal monthly installments over 48 months from the vesting commencement date on October 1, 2011. All options have a term of 10 years from the date of grant.
- (7) The amounts in this column represent the aggregate fair value of each award as of the date it was granted, as determined in accordance with FASB ASC Topic 718.
- (8) Dr. Thomson resigned from the Company effective October 11, 2012.
- (9) These awards are granted as Performance Stock Units, which will fully vest based on the achievement of certain pre-determined goals by the end of a specified performance period. As of June 30, 2012, we did not believe that the pre-determined goals would be met within the performance period and hence have not accrued for these awards in our financials in accordance with relevant accounting guidance. In the event that the performance goals are not met, the PSUs will be automatically forfeited on the last day of the performance period. .
- (10) Ms. Londy's option grant has a vesting commencement date of November 30, 2011. One quarter of the award will vest and become exercisable on November 30, 2012 and the remainder will vest in equal monthly installments over 36 months. The option grant has a term of 10 years from the date of grant.
- (11) Ms. Londy's RSU award will vest in annual installments over four years beginning on the vesting commencement date of November 30, 2011.

Potential Payments and Benefits Upon Termination or Change in Control

We have entered into employment agreements with each of our NEOs, which, among other things, provide for certain payments and benefits upon their termination of employment under specified circumstances and in connection with a termination of employment within three months before or 12 months following a change in control of the Company.

Termination by the Company Without Cause or by the Executive for Good Reason

The NEOs' employment letter agreements define "Cause" as (i) commission by the NEO of a felony, (ii) commission of a crime involving moral turpitude or of any other act or omission involving dishonesty, disloyalty, breach of fiduciary duty or fraud with respect to the Company, any of its subsidiaries, or any of their suppliers or customers, (iii) violation of the Company's Code of Conduct and Ethics, (iv) violation of the Foreign Corrupt Practices Act, or (v) material failure of the NEO to perform the normal and customer duties of his or her position with the Company as reasonably directed by the Company, provided that any of the foregoing acts or omissions are not cured to the Company's reasonable satisfaction within 30 days after written notice is given to the NEO.

The NEOs' employment letter agreements generally define "good reason" as the occurrence of any one or more of the following events without the NEO's prior written consent, unless the Company fully corrects the circumstances constituting good reason within 30 days after notice from the NEO that good reason exists: (i) a material reduction of the NEO's duties and responsibilities under the employment letter agreement, (ii) a material change in the NEO's principal workplace (a change within 35 miles of the Company's Sunnyvale corporate headquarters is not considered material), or (iii) a material reduction of the NEO's annual base salary. In order for a resignation with good reason to be effective, each NEO must provide written notice of his resignation for good reason to the Company within 30 days after the date the NEO first knows or should reasonably know of the occurrence of any

of these events, and the separation date must occur not later than 75 days after the initial occurrence of the event constituting good reason.

In the event of a termination by the Company without Cause or by an executive for good reason, the amount of the severance payments and benefits to which each such executive is entitled depends on an executive's position with the Company. For each executive other than Mr. Raanes, the Executive Vice President, Chief Operating Officer and Dr. Thomson, the Chief Executive Officer, the severance payment is equal to the sum of (a) six months of the executive's annual base salary and (b) a six month "health benefit equivalent," which is equal to twice the amount the executive would be required to pay to continue his or her group health coverage for the applicable period following the separation date, payable whether or not the executive selects COBRA. Pursuant to Mr. Raanes's employment letter agreement, his severance payment is equal to the sum of (a) eight months of his annual base salary, (b) eight months of his target annual bonus for the fiscal year in which the separation occurs, and (c) an eight month health benefit equivalent. Dr. Thomson's employment letter agreement provided for a severance payment equal to the sum of (a) 12 months of his annual base salary, (b) 100% of his target annual bonus for the fiscal year in which the separation occurs, and (c) a 12 month health benefit equivalent. We are in the process of negotiating the terms of Dr. Thomson's Separation Agreement in accordance with the terms of his employment letter agreement with us. In addition, we are also negotiating the terms of a separate consulting arrangement with Dr. Thomson, whereby Dr. Thomson would provide us with consulting services through April 15, 2013 in exchange for a monthly consulting fee of \$20,500.

Termination in Connection with a Change in Control of the Company.

For each of our NEOs, these severance payments and benefits are generally larger in the event that the termination of employment occurs within three months before or 12 months following a change in control of the Company. Each of the NEOs' employment letter agreements defines "change in control" to include the following:

- the direct or indirect acquisition of beneficial ownership of more than 50% of the total combined voting power of the Company's securities by a person or group of persons pursuant to a transaction or series of transactions (other than through an offering of the Company's common stock to the general public through a registration statement filed with the SEC);
- during any consecutive two year period, the people who constitute the Board of Directors (together with any new director whose election by the Board or the Company's stockholders was approved by at least two thirds of the directors still in office who were directors at the beginning of the two year period or whose election was previously so approved) cease to constitute a majority of the Board of Directors;
- the consummation by the Company of (i) a merger, consolidation, reorganization or business combination, (ii) a sale or disposition of all or substantially all of the Company's assets or (iii) the acquisition of assets or stock of another entity, in each case *other than* a transaction (a) which results in the Company's voting securities outstanding before the transaction to represent at least a majority of the combined voting power of the successor entity's outstanding voting securities and (b) after which no person or group beneficially owns voting securities representing 50% or more of the combined voting power of the successor entity; or
- the Company's stockholders approve a liquidation or dissolution of the Company.

For each of our executives, including the NEOs, in the event of a termination of employment within three months before or 12 months following a change in control, the severance payment will include amounts equal to the following:

- 24 months of the executive's annual base salary;

- 200% of the executive's target annual bonus for the fiscal year in which the termination occurs; and
- a 24 month health benefit equivalent.

In addition, each executive officer will receive full and immediate vesting of all options and RSUs. The Company will also provide executive officers with outplacement assistance in accordance with the Company's then-current policies and practices with respect to outplacement assistance for other similarly situated executives of the Company.

Section 409A of the Code

For each NEO, the severance benefits and payments may be subject to a delay of up to six months, as necessary, to avoid the imposition of additional tax under Section 409A of the Code. In addition, if any payments or benefits payable under the letter agreement or otherwise would be subject to the excise tax under Section 4999 of the Code, such payments and/or benefits will be reduced to the extent necessary so that no amount will be subject to such excise tax, provided that such reduction will only occur if the NEO will be in a more favorable after-tax position than if no such reduction was made.

Restrictive Covenants

In consideration for the potential receipt of payments and benefits upon termination of employment or in connection with a change in control of the Company, each of our executives, including the NEOs, is subject to compliance with certain restrictive covenants as set forth in their individual employment letter agreements. Generally, these covenants prohibit our executives from disclosing our proprietary or confidential information during their employment with the Company and thereafter, soliciting any of our employees to leave employment with the Company or any of our customers or suppliers to do business with any of our competitors for the duration of their employment with the Company and for one year thereafter, and from competing with the Company for the duration of their employment. In addition, any payments and benefits are conditioned upon an executive entering into a general release of claims in favor of the Company.

Section 4999 of the Code

If, in connection with a change in control of the Company, any payments or benefits payable to our executives, including the NEOs, would be subject to the excise tax imposed by Section 4999 of the Code, their payments and benefits will be reduced to the extent necessary so that no amount will be subject to this excise tax, provided that the reduction will occur only if the executive will be in a more favorable after-tax position than if no reduction had been made. We believe that this approach protects the value of compensation already awarded to our executives, and mitigates any potential personal bias against a potential corporate transaction.

Other Information

The Compensation Committee does not consider the potential payments and benefits under these arrangements when making compensation decisions for our executives, including the NEOs. These arrangements serve very specific purposes that are unrelated to the determination of our executive officers' total direct compensation for a specific year.

Potential Payments to our NEOs on Termination of Employment

The tables below reflect potential payments to our NEOs who are currently employed by us in the event of a termination of employment or a change in control of our Company, based on the terms of

employment agreements in effect as of June 29, 2012. The amounts shown assume that the termination or change in control, as applicable, occurred on June 29, 2012, the last business day of our last fiscal year. The amounts set forth in the table below represent our reasonable estimates of the amounts that would be paid to the NEOs upon their termination or a change in control, but exclude (a) any accrued amounts payable to them through the date of separation (including any earned but unpaid bonus) and (b) the value of any stock awards or option awards that vested on or before June 29, 2012. The actual amounts to be paid can only be determined at the time of the Named Executive Officers' separation from our Company or upon the occurrence of a change in control.

The value of the option and restricted stock unit vesting acceleration was calculated based on the assumption that the change in control and the executive's employment termination occurred on June 29, 2012. The closing price of our stock on the NASDAQ Global Select Market as of June 29, 2012 was \$6.82 per share, which was used as the value of our stock for purpose of these calculations. The value of the vesting acceleration was calculated by multiplying the number of accelerated option shares and common stock as of June 29, 2012 by the spread between the closing price of our stock as of June 29, 2012 and the exercise price for such unvested option shares and common stock. The values reflected also assume that the payments and benefits to the NEOs are not reduced by virtue of the provisions in the employment letter agreements relating to Section 4999 of the Code.

Director Cash Compensation

Effective November 2011, each non-employee director received an annual cash retainer of \$35,000 per year, paid quarterly, an increase of \$5,000 from the prior year. In addition, Mr. Lavigne, received an annual cash retainer of \$45,000, paid quarterly for serving as Chairperson of our Board of Directors, and Ms. Dávila received an annual cash retainer of \$10,000, paid quarterly, for serving as the Vice Chairperson of our Board of Directors. Directors who served on the standing committees of our Board of Directors and the chairperson of each such committee received an additional annual cash retainer as follows:

<u>Committee</u>	<u>Chairperson retainer (\$)</u>	<u>Member retainer (\$)</u>	<u>Number of meetings covered</u>
Audit Committee	\$ 20,000	\$ 10,000	8
Compensation Committee	10,000	5,000	6
Nominating and Corporate Governance Committee	5,000	3,000	4

For meetings of standing committees in excess of the number set forth above, and for each Board meeting in excess of four, each director, including the chairperson, received \$1,000 per meeting attended in-person and \$500 per meeting attended telephonically.

In addition to the foregoing, all of our directors are reimbursed for the reasonable expenses incurred in connection with participating in the meetings of our Board of Directors and committees of our Board of Directors. Employee directors are not compensated for board services in addition to their regular employee compensation.

Non-Employee Director Equity Compensation

Pursuant to guidelines for annual option grants adopted by our Board of Directors in November 2010 and affirmed in November 2011, each of our non-employee directors receives an annual RSU grant equal to the number of shares of our common stock obtained by dividing \$120,000 by the fair market value (as of the date of grant) of one share of our common stock, such RSUs to be granted on the last day of the month in which our annual meeting of stockholders occurs, with a vesting commencement date of the date of the annual meeting. On November 30, 2011, each then-current director was granted an RSU award covering 29,925 shares of the Company's common stock under the 2007 Incentive Award Plan, with a vesting commencement date of November 18, 2011. The annual RSU grants vest in full on the first anniversary of the vesting commencement date. We expect to make an annual option grant to each of our continuing directors in accordance with these guidelines on approximately November 30, 2012. Peter Fine resigned from the Board of Directors effective December 31, 2011, and his November 30, 2011 award was cancelled as of that date.

The November 2010 guidelines adopted by our Board of Directors also provide that upon initial appointment to our Board of Directors, a non-employee director will receive an option grant equal to the number of shares of our common stock obtained by dividing \$70,000 by the fair market value (as of the date of grant) of one share of our common stock, at a per share exercise price equal to the fair market value of one share of our common stock on the date of grant. Initial option grants will vest in full on the first anniversary of the vesting commencement date. The vesting commencement date for initial option grants is the date of appointment of the new director, and the grant date is the last day of the month in which the director is appointed. Vesting of options would be accelerated in full in the event of a change in control of our Company. On May 31, 2012, Richard Pettingill was granted an option to purchase 11,164 shares of the Company's common stock under the 2007 Incentive Award Plan at an exercise price of \$6.27 and with a vesting commencement date of May 11, 2012, which was Mr. Pettingill's first day as a director.

No additional option or RSU grants are provided for committee membership or for serving as the chairperson of a committee.

The Amended and Restated Corporate Governance Guidelines adopted by our Board of Directors in March 2012 require non-employee directors of the Company to own the number of shares having a value equal to at least three times the non-employee director's regular annual cash board retainer.

Non-employee directors have five years from the later of July 1, 2010 and the date of election or appointment to attain the foregoing ownership levels. The Company expects each non-employee director to retain at least 25% of the net shares he or she receives pursuant to all Company equity awards (excluding shares sold to cover (i) the exercise price of any Company options and/or (ii) taxes), until the foregoing ownership levels are achieved. All of the non-employee directors who have served in that capacity for at least one year are in compliance with the ownership levels provided in the Amended and Restated Corporate Governance Guidelines or are on track to be in compliance within the time period provided by the guidelines.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and persons who beneficially own more than 10% of our common stock to file reports of ownership and reports of changes in ownership of our common stock and other equity securities with the SEC. Directors, executive officers and beneficial owners of more than 10% of our common stock are required by SEC regulations to furnish us with copies of all these forms they file.

Based solely upon our review of the copies of Forms 3, 4 and 5 received by us, or written representations from reporting persons that no forms were required of such persons, we believe that during our fiscal year ended June 30, 2012, with the exception of a Form 3 for Ms. Londy, which was filed late on November 8, 2011, a Form 4 for Ms. Dadone, which was filed late on December 22, 2011, and a Form 4 for Mr. Pettingill, which was filed late on June 20, 2012 all Section 16(a) reports were timely filed.

CORPORATE GOVERNANCE AND BOARD OF DIRECTORS MATTERS

Director Independence

Our Board of Directors consists of eight directors prior to the Annual Meeting. Following the Annual Meeting, the Board of Directors will consist of seven directors and one vacancy, as Wayne Wu

was not renominated to be a member of the Board of Directors. Our Board of Directors has determined that each of our current directors other than Joshua H. Levine, our President and Chief Executive Officer, are independent under the director independence standards of the NASDAQ Stock Market.

Board Leadership Structure

Our Board of Directors has a general policy that the positions of Chairperson of the Board and Chief Executive Officer should be held by separate persons as an aid in the Board of Directors' oversight of management and to allow our Chief Executive Officer to focus on managing his day-to-day responsibilities to our Company. This policy is reflected in the Corporate Governance Guidelines amended and restated by our Board of Directors in March 2012. The Board of Directors believes that there may be advantages to having an independent chairperson for matters such as communications and relations between the Board of Directors, the CEO, and other senior management; in assisting the Board of Directors in reaching consensus on particular strategies and policies and in facilitating robust director, Board and CEO evaluation processes. Our Chief Executive Officer serves as a member of the Board of Directors, and the remaining board members, including Louis J. Lavigne, Jr., our current Chairperson of the Board, and Elizabeth Dávila, our Vice Chairperson of the Board, are independent.

The Corporate Governance Guidelines provide that the Board of Directors may consider having one person fill both the roles of Chief Executive Officer and Chairperson of the Board. In making such a determination, the Board of Directors should consider factors that include, but are not limited to, the size of the Company's business, the composition of the Board, of Directors candidates for Board of Directors seats, applicable regulations and the Company's succession planning goals. In the event the Board of Directors determines that it is in the best interests of the Company and its stockholders to have these roles filled by one individual, or if the Chairperson of the Board is otherwise not independent, then the Corporate Governance Guidelines provide that the Board of Directors shall appoint a Lead Independent Director who shall lead executive sessions.

Majority Voting

Effective August 23, 2011, we amended our Bylaws to provide for a majority voting standard in the election of directors in uncontested elections and our Corporate Governance Guidelines to require all director nominees to submit their resignations to the Board of Directors, which resignations are contingent upon (1) their not receiving a majority of votes cast in uncontested elections and (2) the Board of Directors accepting the resignation.

Board Oversight of Risk

The Board of Directors, as a whole and through the various committees of the Board of Directors, oversees the Company's risk management process, including operational, financial, legal and regulatory, strategic and reputational risks. Our Board of Directors' approach to risk oversight is designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance stockholder value. A fundamental part of our risk oversight is not only understanding the risks a company faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate for us. In setting our business strategy, our Board of Directors assesses the various risks being mitigated by management and determines what constitutes an appropriate level of risk for the Company.

Board of Directors committees consider risks within their respective areas of oversight responsibility and the respective committee chairs advise the Board of Directors of any significant risks and management's response via periodic committee reports to the full Board of Directors. In particular, the Audit Committee focuses on financial and accounting risk, including internal controls. The

Compensation Committee considers risks relating to the Company's compensation programs and policies. The Nominating and Corporate Governance considers risks relating to the Company's corporate governance.

While the Board of Directors oversees risk management, the Company's management is charged with managing risk on a day-to-day basis. The Company has strong internal processes and a robust internal control environment, which facilitates the identification and management of risks and regular communication with the Board of Directors. These processes include an enterprise risk management program, a management risk committee chaired by our General Counsel, quarterly management disclosure committee meetings, Codes of Conduct and Ethics, and a strong compliance program.

The results of the compensation risk assessment described above under *Compensation Risk Consideration* will be reported back to the management risk committee for ongoing monitoring. The management risk committee will report developments with respect to compensation and other risks to the full Board of Directors, in accordance with the Company's enterprise risk management program.

Committees of the Board of Directors

Our Board of Directors has three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. From time to time, our Board of Directors may also create various ad hoc committees for special purposes. A copy of the charter for each such standing committee can be found on our website, www.accuray.com, under the section titled "Investor Relations" and under the subsection "Corporate Governance."

The current membership of each of the three standing committees of our Board of Directors, as well as the number of meetings and actions by written consent of each such committee during the fiscal year ended June 30, 2012, is set forth below:

Audit Committee

The Audit Committee oversees our corporate accounting and financial reporting process. Among other matters, the Audit Committee evaluates the independent auditors' qualifications, independence and performance; determines the engagement of the independent auditors; reviews and approves the scope of the annual audit and the audit fee; discusses with management and the independent auditors the results of the annual audit and the review of our quarterly consolidated financial statements; approves the retention of the independent auditors to perform any proposed permissible non-audit services; monitors the rotation of partners of the independent auditors on the Company's engagement team as required by law; reviews our critical accounting policies and estimates; oversees our internal audit function and annually reviews the Audit Committee charter and the committee's performance.

The members of the Audit Committee during fiscal 2012 were Mr. Weiss, the chairperson of the committee, Ms. Dávila, Mr. Winger, and Mr. Fine, until his resignation from the Board of Directors effective December 31, 2011. All members of the Audit Committee meet the requirements for financial literacy under the applicable rules and regulations of the SEC and NASDAQ. Our Board of Directors has determined that Messrs. Weiss and Winger are audit committee financial experts as defined under the applicable rules of the SEC and each has the requisite financial sophistication as defined under the applicable rules and regulations of NASDAQ. Each of the members of the Audit Committee is independent as defined under the applicable rules and regulations of the SEC and NASDAQ.

Compensation Committee

The Compensation Committee reviews and recommends policies relating to compensation and benefits of our officers and employees. The Compensation Committee reviews and approves corporate goals and objectives relevant to compensation of our chief executive officer and other executive officers, evaluates the performance of these officers in light of those goals and objectives, and sets the compensation of these officers based on such evaluations. The Compensation Committee also administers the issuance of stock options and other awards under our stock plans (other than awards granted to non-employee members of our Board of Directors). The 2007 Equity Incentive Plan permits delegation by the Committee to a committee of one or more members of the Board of Directors or one or more officers of the Company the authority to grant or amend awards to participants under the plan other than (a) senior executives of the Company who are subject to Section 16 of the Exchange Act, (b) Covered Employees under Section 162(m) of the Code, or (c) officers of the Company (or members of the Board of Directors) to whom authority to grant or amend Awards has been delegated thereunder. The Committee may at any time rescind the authority so delegated or appoint a new delegate. Effective as of July 1, 2010, the Compensation Committee delegated the authority to grant routine stock options and other awards under our stock plans (other than awards granted to employees who report directly to the Chief Executive Officer) to our Chief Executive Officer and Chief Financial Officer, collectively, within guidelines determined by the Compensation Committee, to newly hired employees of the Company, and effective March 25, 2011, the Compensation Committee delegated the authority to grant routine stock options and other awards made to employees of the Company (other than awards granted to employees above the director level) under our stock plans to our Chief Executive Officer and Chief Financial Officer, collectively, within guidelines determined by the compensation committee, for the purpose of promotion or special recognition. The Compensation Committee also reviews and recommends policies relating to the compensation of non-employee directors. The Compensation Committee will review and evaluate, at least annually, the performance of the Compensation Committee as a whole and of its members, including compliance of the Compensation Committee with its charter.

The members of the Compensation Committee during fiscal 2012 were Mr. Lavigne, the chairperson of the Committee, Ms. Dávila and Dr. Goldstein. Each of the members of the Compensation Committee is independent under the applicable rules and regulations of the SEC, NASDAQ and the Internal Revenue Service.

Compensation Risk Consideration

During fiscal 2012, at the direction of our Compensation Committee, Compensia, with the assistance of our management, conducted a review of the Company's compensation policies and practices and their respective risk profiles. Compensia presented the findings to the Compensation Committee for consideration. After consideration of the information presented, the Compensation Committee concluded that our compensation programs are designed with an appropriate balance of risk and reward in relation to our overall business strategy and do not encourage excessive or unnecessary risk-taking behavior.

In making this determination, the Compensation Committee considered our pay mix, our base salaries, and the attributes of our variable compensation programs including our annual bonus plan, our equity programs, and our sales compensation plans. We also have in place numerous business controls such as maximum payout levels in our bonus plan, a sales compensation committee, a recoupment policy and other internal business and operational approval processes.

The Compensation Committee believes that the design of our compensation programs as outlined in the "*Compensation Discussion and Analysis*" section above places emphasis on long-term incentives and competitive base salaries, while a portion of the total annual compensation is tied to short-term performance in the form of an annual bonus. The Compensation Committee concluded that this mix of incentives appropriately balances risk and also properly aligns our executives' motivations for the Company's long-term success, including stock price performance.

As described below under "*Board Oversight of Risk*", the Company has implemented an enterprise risk management program and a management risk committee chaired by our General Counsel. The results of the foregoing compensation risk assessment will be reported back to the management risk committee for ongoing monitoring. The management risk committee will report developments with respect to compensation and other risks to the full Board of Directors, in accordance with the Company's enterprise risk management program.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance committee is responsible for making recommendations to our Board of Directors regarding candidates for directorships and the size and composition of our board. In addition, the Nominating and Corporate Governance Committee is responsible for reporting and making recommendations to our board concerning governance matters and for overseeing the performance evaluations of the members of our Board of Directors.

The members of the Nominating and Corporate Governance Committee during fiscal 2012 were Ms. Dávila, the chairperson of the committee, Mr. Lavigne, Mr. Weiss and Mr. Wu. Effective July 1, 2012, the Board approved revisions to the membership of this committee, such that the members of the committee are Dr. Goldstein, the chairperson, Mr. Pettingill, Mr. Weiss and Mr. Wu. Each of the foregoing members of the Nominating and Corporate Governance Committee is independent under the applicable rules and regulations of the SEC and NASDAQ.

Meetings Attended by Directors

Our Board of Directors held a total of 10 meetings and acted by unanimous written consent seven times during our fiscal year ended June 30, 2012. During fiscal 2012, all of our directors attended at least 75% of the total number of meetings held by our Board of Directors and each of the committee(s) of our Board of Directors on which he or she served during the period for which he or she was a director. Each Board of Directors meeting was chaired by the Chairperson of our Board, who is independent.

The independent directors hold meetings on a periodic basis. During our fiscal year ended June 30, 2012, the independent directors held 6 such meetings. The meetings of the independent directors typically take place in connection with the regularly scheduled meetings of the full Board of Directors. The independent directors may also meet at such other times as they deem necessary or appropriate.

Pursuant to our Amended and Restated Corporate Governance Guidelines, our directors are encouraged to attend our annual meeting of stockholders. All then-current directors, attended our 2011 annual meeting of stockholders.

Consideration of Director Nominees

Stockholder Nominations and Recommendations. The policy of the Nominating and Corporate Governance Committee is to consider recommendations and properly submitted stockholder nominations for candidates for membership on our Board of Directors. A stockholder may make such a recommendation or nomination by following the procedures set forth below in the "*Nomination of Director Candidates*" section of this Proxy Statement.

Director Qualifications. The Nominating and Corporate Governance Committee believes that the members of our Board of Directors should have the highest professional and personal ethics and values, and conduct themselves in a manner that is consistent with our Code of Conduct and Ethics. While the Nominating and Corporate Governance Committee has not established specific minimum qualifications for director candidates, the Committee may consider the following criteria, among others, for candidates and nominees: (i) personal and professional integrity, ethics and values; (ii) experience in corporate management and a general understanding of market, finance and other elements relevant to the success of a publicly traded company; (iii) experience in our industry and with relevant social policy concerns; (iv) prior experience as a director of a publicly held company; (v) academic expertise in an area of our operations; and (vi) practical and mature business judgment, including ability to make independent analytical inquiries.

Identifying and Evaluating Director Nominees. Candidates for nomination to our Board of Directors typically come to the attention of our Board of Directors through professional search firms, although they may also be suggested by existing directors or executive officers, stockholders or other persons. Since we became a public company, we have engaged Spencer Stuart and Russell Reynolds, each a professional search firm, to help us identify suitable Board of Directors nominees. The Nominating and Corporate Governance Committee reviews the qualifications of any candidates who have been properly brought to the Committee's attention. Such review generally includes discussions with persons familiar with the candidate and an interview with the candidate, and may include other actions that the Committee deems proper. The Nominating and Corporate Governance Committee considers the suitability of each candidate, including the current members of our Board of Directors, in light of the current size and composition of our Board of Directors. In evaluating the qualifications of the candidates, the Committee considers many factors, including issues of character, judgment, independence, age, expertise, diversity of experience, length of service, other commitments and other similar factors. The Company's Corporate Governance Guidelines provide that the Nominating and Corporate Governance Committee and the Board should see that the Board has the benefit of a wide range of skills, expertise, industry knowledge and other attributes, including cultural, gender and ethnic diversity, experience in industries beyond healthcare, and age diversity. The Governance Committee assesses its achievement of diversity through the review of Board composition as part of the Board's annual self-assessment process. The Committee evaluates such factors, among others, and does not assign any particular weighting or priority to any of these factors. The Committee expects that it would evaluate candidates properly recommended by stockholders using the same criteria as other candidates.

Code of Conduct and Ethics

We are committed to maintaining the highest standards of business conduct and ethics. Our Code of Business Conduct and Ethics reflects our values and the business practices and principles of behavior that support this commitment. The code applies to all of our officers, directors and employees. Our Code of Conduct and Ethics can be found on our website, www accuray.com, under the section titled "Investor Relations" and under the subsection "Corporate Governance."

Compensation Committee Interlocks and Insider Participation

None of Messrs. Lavigne or Goldstein or Ms. Dávila, the members of the Compensation Committee during fiscal 2012, has at any time been one of our executive officers or employees. None of our current executive officers currently serves, or in the past fiscal year has served, as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving on our Board of Directors or Compensation Committee.
